How the Other Half Banks Mehrsa Baradaran, 2015-10-06 The United States has two separate banking systems one serving the well to do and another exploiting everyone else Deserted by banks and lacking credit many people are forced to wander through a Wild West of payday lenders and check cashing services thanks to the effects of deregulation in the 1970s that continue today Mehrsa Baradaran shows

How the Other Half Banks Mehrsa Baradaran, 2015-10-06 The United States has two separate banking systems today one serving the well to do and another exploiting everyone else How the Other Half Banks contributes to the growing conversation on American inequality by highlighting one of its prime causes unequal credit Mehrsa Baradaran examines how a significant portion of the population deserted by banks is forced to wander through a Wild West of payday lenders and check cashing services to cover emergency expenses and pay for necessities all thanks to deregulation that began in the 1970s and continues decades later Baradaran argues persuasively that the banking industry fattened on public subsidies including too big to fail bailouts owes low income families a better deal How the Other Half Banks is well researched and clearly written The bankers who fully understand the system are heavily invested in it Books like this are written for the rest of us Nancy Folbre New York Times Book Review How the Other Half Banks tells an important story one in which we have allowed the profit motives of banks to trump the public interest Lisa J Servon American Prospect

Predatory Lending and the Destruction of the African-American Dream Janis Sarra, Cheryl L.

Wade, 2020-07-09 Since the Great Recession of 2008 the racial wealth gap between black and white Americans has continued to widen In *Predatory Lending and the Destruction of the African American Dream* Janis Sarra and Cheryl Wade detail the reasons for this failure by analyzing the economic exploitation of African Americans with a focus on predatory practices in the home mortgage context They also examine the failure of reform and litigation efforts ostensibly aimed at addressing this form of racial discrimination This research augmented by first hand narratives provides invaluable insight into the racial wealth gap by vividly illustrating the predation that targets African American consumers and examining the intentionally obfuscating settlement terms of cases brought by the U S Department of Justice states attorneys and municipalities The authors conclude by offering structural systemic changes to address predatory practices This important work should be read by anyone seeking to understand racial inequality in the United States

We Are Not Able to Live in the Sky Mara

Kardas-Nelson, 2024-06-11 Shortlisted for the J Anthony Lukas Prize A deeply reported work of journalism that explores the promises and perils of microfinance told through the eyes of international lenders and women borrowers in West Africa In the mid 1970s Muhammad Yunus an American trained Bangladeshi economist met a poor female stool maker who needed money to expand her business In an act widely known as the beginning of microfinance Yunus lent 27 to forty two women hoping small credit would help the women pull themselves out of poverty Soon Yunus s Grameen Bank was born and the idea of giving very small high interest loans to poor people took off In 2006 Yunus and the Grameen Bank won the Nobel Peace

Prize for efforts to create economic and social development from below But there s a problem with this story There are mounting concerns that these small loans are as likely to bury poor people in debt as they are to pull them from poverty with borrowers from India to Kenya facing consequences such as jail time and forced land sales Reportedly hundreds have even committed suicide What happened Did microfinance take a wrong turn or was it flawed from the beginning Mara Kardas Nelson s *We Are Not Able to Live in the Sky* is about unintended consequences blind optimism and the decades long ramifications of seemingly small policy choices The book is rooted in the stories of women borrowers in Sierra Leone West Africa Their narratives woven through a deep history of modern international development are set against the rise of Yunus s vision that tiny loans would put poverty in museums Kardas Nelson asks What is missed with a single financially focused solution to global inequity that ignores the real drivers of poverty Who stands to benefit and more important who gets left behind

Busting the Bankers' Club Gerald Epstein,2025-01-07 An eye opening account of the failures of our financial system the sources of its staying power and the path to meaningful economic reform Bankers brought the global economic system to its knees in 2007 and nearly did the same in 2020 Both times the US government bailed out the banks and left them in control How can we end this cycle of trillion dollar bailouts and make finance work for the rest of us *Busting the Bankers Club* confronts the powerful people and institutions that benefit from our broken financial system and the struggle to create an alternative Drawing from decades of research on the history economics and politics of banking economist Gerald Epstein shows that any meaningful reform will require breaking up this club of politicians economists lawyers and CEOs who sustain the status quo Thankfully there are thousands of activists experts and public officials who are working to do just that Clear eyed and hopeful *Busting the Bankers Club* centers the individuals and groups fighting for a financial system that will better serve the needs of the marginalized and support important transitions to a greener fairer economy *Grand*

Fixed John Y. Campbell, Tarun Ramadorai, 2025-10-21 Two leading economists reveal why today's personal finance markets are rigged against us and offer practical steps to fix them We interact with the financial system every day whether taking out or paying off loans making insurance claims or simply depositing money into our bank accounts Fixed exposes how this system has been corrupted to serve the interests of financial services providers and their cleverest customers at the expense of ordinary people John Campbell and Tarun Ramadorai diagnose the ills of today's personal finance markets in the United States and across the globe looking at everything from short term saving and borrowing to loans for education and housing financial products for retirement and insurance They show how the system is fixed to benefit those who are wealthy and more educated while encouraging financial mistakes by those who are not making it difficult for regular consumers to make sound financial decisions and disadvantaging them in some of the most consequential economic transactions of their lives Campbell and Ramadorai describe how some even opt out of the financial system altogether relying on unregulated and often shady mechanisms to implement necessary financial functions with dire consequences for individuals families and the economy more broadly With the explosive growth of the global middle class longer lifespans and greater numbers of seniors managing their money alone the pitfalls of personal finance now affect billions of people around the world Fixed proposes concrete solutions that harness the expertise of economists the power of government and the speed of technology to restore fairness and trust in our broken system and make it work better for ordinary people

The Handbook of Diverse Economies J.K. Gibson-Graham, Kelly Dombroski, 2020-02-28 Economic diversity abounds in a more than capitalist world from worker recuperated cooperatives and anti mafia social enterprises to caring labour and the work of Earth Others from fair trade and social procurement to community land trusts free universities and Islamic finance The Handbook of Diverse Economies presents research that inventories economic difference as a prelude to building ethical ways of living on our dangerously degraded planet With contributing authors from twenty countries it presents new thinking around subjectivity and methodology as strategies for making other worlds possible

The Color of Money Mehrsa Baradaran, 2017-09-14 Read this book It explains so much about the moment Beautiful heartbreaking work Ta Nehisi Coates A deep accounting of how America got to a point where a median white family has 13 times more wealth than the median black family The Atlantic Extraordinary Baradaran focuses on a part of the American story that's often ignored the way African Americans were locked out of the financial engines that create wealth in America Ezra Klein When the Emancipation Proclamation was signed in 1863 the black community owned less than 1 percent of the total wealth in America More than 150 years later that number has barely budged The Color of

Money seeks to explain the stubborn persistence of this racial wealth gap by focusing on the generators of wealth in the black community black banks With the civil rights movement in full swing President Nixon promoted black capitalism a plan to support black banks and minority owned businesses But the catch 22 of black banking is that the very institutions needed to help communities escape the deep poverty caused by discrimination and segregation inevitably became victims of that same poverty In this timely and eye opening account Baradaran challenges the long standing belief that black communities could ever really hope to accumulate wealth in a segregated economy Black capitalism has not improved the economic lives of black people and Baradaran deftly explains the reasons why Los Angeles Review of Books A must read for anyone interested in closing America s racial wealth gap Black Perspectives Democratizing Finance Clifford N. Rosenthal,2018 Decades before Occupy Wall Street challenged the American financial system activists began organizing alternatives to provide capital to unbankable communities and the poor With roots in the civil rights anti poverty and other progressive movements they brought little training in finance They formed nonprofit loan funds credit unions and even a new bank organizations that by 1992 became known as community development financial institutions or CDFIs By melding their vision with that of President Clinton CDFIs grew from church basements and kitchen tables to number more than 1 000 institutions with billions of dollars of capital They have helped transform community development by providing credit and financial services across the United States from inner cities to Native American reservations Democratizing Finance traces the roots of community development finance over two centuries a history that runs from Benjamin Franklin through an ill starred bank for African American veterans of the Civil War the birth of the credit union movement and the War on Poverty Drawn from hundreds of interviews with CDFI leaders presidential archives and congressional testimony Democratizing Finance provides an insider view of an extraordinary public policy success Democratizing Finance is a unique resource for practitioners policymakers researchers and social investors **Research Handbook on Law and Emotion** Susan A.
