Facebook and Twitter Use conservatives words against them with a handy compilation of moronic right wing quotes It s time to defend America against every intolerant corrupt arrogant greed mongering science hating reality denying imbecile in your midst Stop the stampede of mindless fact loathing wingnuts How the Left Can Win Arguments and Influence People John K. Wilson,2001 If we were to rely on what the pundits and politicians tell us we would have to conclude that America is a deeply conservative nation Americans we hear constantly detest government demand lower taxes and the end of welfare and favor the death penalty prayer in school and an absolute faith in the free market And yet Americans believe deeply in progressive ideas In fact progressivism has long been a powerful force in the American psyche Consider that a mere generation ago the struggle for environmentally sound policies for women s rights and for racial equality were fringe movements Today open opposition to these core ideals would be political suicide Drawing on this wellspring of American progressivist tradition John K Wilson has penned an informal handbook for the pragmatic progressive Wilson insists that the left must become more savvy in its rhetoric and stop preaching only to the converted Progressives need to attack the tangible realities of the corporate welfare state while explicitly acknowledging that socialism is as Wilson writes deader than Lenin Rather than attacking a right wing conspiracy Wilson argues that the left needs one too Tracing how well funded conservative pressure groups have wielded their influence and transformed the national agenda Wilson outlines a similar approach for the left Along the way he exposes the faultlines of our poll and money driven form of politics explodes the myth of the liberal media and demands that the left explicitly change its image Irreverent practical and urgently argued How The Left Can Win Arguments and Influence People charts a way to translate progressive ideals into reality and reassert the core principles of the American left on the national stage **How to Stop Fascism** Paul Mason,2021-08-26 For its historical depth analytical vigour and mobilizational potential this book is unparalleled every page is an urgent invitation to resist David Lammy MP The bestselling author of PostCapitalism offers a guide to resisting the far right The far right is on the rise across the world From Modi s India to Bolsonaro s Brazil and Erdogan s Turkey fascism is not a horror that we have left in the past it is a recurring nightmare that is happening again and we need to find a better way to fight it In How to Stop Fascism Paul Mason offers a radical hopeful blueprint for resisting and defeating the new far right The book is both a chilling portrait of contemporary fascism and a compelling history of the fascist phenomenon its psychological roots political theories and genocidal logic Fascism Mason powerfully argues is a symptom of capitalist failure and it has haunted us throughout the twentieth century History shows us the conditions that breed fascism and how it can be successfully overcome But it is up to us in the present to challenge it and time is running out From the ashes of COVID 19 we have an opportunity to create a fairer more equal society To do so we must ask ourselves what kind of world do we want to live in And what are we going to do about it **Trumpism, Carl Schmitt, and the Threat of Anti-Liberalism in the United States** Roberta A. Adams,2024-11-05 Trumpism Carl Schmitt and the threat of Anti liberalism in the United States The Political Thought of

Making Liberalism Work Susan A. Ashley, 2003-08-30 By most accounts Italian style liberalism failed Explanations of its failure vary from economic backwardness or a political culture shaped by autocracy to claims that liberals ruined their chances by pursuing nothing but narrow middle class interests This study examines the liberal record to weigh the accuracy of these approaches Ashley focuses on three controversial issues public works social reform and public order The railroads would test liberal commitment to laissez faire labor laws their pledge to protect all citizens and dissent their allegiance to individual rights In each case liberals compromised their principles What they decided defined the Italian variant of liberalism by transforming it from a doctrine to concrete practices and political behaviors Particularly after 1890 liberals increasingly made empiricism the primary justification for policy and dismissed abstract principles as beneath notice This shift helps explain why liberalism lost authority and credibility as a set of moral imperatives and as a coherent world view in Italy as well as why it failed to offer most Italians a compelling alternative to either Socialism or Fascism Examining what liberals said and did however does not entirely support the despairing judgment of so many historians Italian liberals managed to build a liberal state and to make it function against intransigent obstacles
