**Effective Crime Reduction Strategies** James F. Albrecht, Dilip K. Das, 2011-02-22 The International Police Executive Symposium IPES [www.ipes.info](http://www.ipes.info) coordinates annual international conferences to evaluate critical issues in policing and recommend practical solutions to law enforcement executives deployed across the globe Drawn from the 2005 proceedings hosted by the Czech Republic in Prague Effective Crime Reduction Strategie

**Business Dynamics in Information Technology** Gottschalk, Petter, 2007-03-31 Emerging business models value configurations and information technologies interact over time to create competitive advantage Modern information technology has to be studied understood and applied along the time dimension of months and years where changes are the rule Such changes created by interactions between business elements and resources are very well suited for system dynamics modeling Business Dynamics in Information Technology presents business technology alignment processes business technology interaction processes and business technology decision processes serving the purpose of helping the reader study information technology from a dynamic rather than a static perspective By introducing two simple tools from system dynamic modeling causal loops and reference modes the dynamic perspective will become important to both students and practitioners in the future

*Knowledge Management in Policing* Petter Gottschalk, 2009 [CIO and Corporate Strategic Management: Changing Role of CIO to CEO](#) Gottschalk, Petter, 2006-09-30 This book holds key information in improving a CIO s role which would then advance his her chances of moving into a CEO role It provides analysis within theoretical frameworks and consulting recommendations starting with the demand side of CEO successions specifically highlighting approaches in IT foundations e business development and IT sourcing decisions Provided by publisher

*The Judiciary between Management and the Rule of Law* Andreas Lienhard, Daniel Kettiger, 2016-08-03 This publication presents the consolidated results of the interdisciplinary research project Basic Research into Court Management in Switzerland which was supported by the Swiss National Science Foundation It contains contributions relating to key areas in the organisation of the judicial system It considers fundamental questions of constitutional and political importance relating to supervision and the protection of personal privacy and also includes research findings on the environment in which the judiciary operates and on its resources with a focus on caseload management Furthermore it tackles the issues of quality in the work of the courts their organisation and the image of judges and court culture in general The publication

concludes with an appraisal of the results and by identifying the areas where further research may be required

**Money Laundering and Terrorism Financing in Global Financial Systems** Rafay, Abdul, 2021-04-16 During the last few decades corrupt financial practices were increasingly being monitored in many countries around the globe The past few decades have been eventful for these issues Today tackling money laundering and terrorism financing are considered key issues in developed and developing countries alike Eradication of money laundering and terrorism financing through a holistic approach of awareness prevention and enforcement is a current need It has enabled the birth of new regulatory regimes based on strict compliance robust processes and technology One of the many problems with this is the lack of general awareness about all these issues among various stakeholders including researchers and practitioners Money Laundering and Terrorism Financing in Global Financial Systems deepens the discourse about money laundering terrorism financing and risk management in a modern day environment It provides a fascinating and invaluable guide for understanding the theory practice and cases of these topics Split into two sections the first being money laundering and terrorism financing and the second being financial governance and risk management the chapters create comprehensive knowledge on these acts of crime in the financial industry by defining the crimes themselves the many challenges and impacts and potential solutions This book is ideal for government officials financial professionals policymakers academicians business professionals managers IT specialists researchers and students

**Knowledge Management** Tapan K Panda, 2008 The idea of managing and transforming tacit to explicit knowledge is getting more and more attention in public systems domain It has been quite sometime that authors researchers and managers have come to realize that employees processes and systems of decision making in the organizations are a great reservoir of tacit knowledge It is an important challenge to build and manage systems that can capture store retrieve and build new knowledge base for effective decision making and yet have a human interface This book is an eye opener for people having interest in knowledge management and knowledge management systems in modern organizations This book covers ideas models conceptual papers and case studies covering the whole globe through the lenses of authors of different continents For good governance and effective management of public systems the authors have developed knowledge management processes models and systems that can have universal appeal and applicability The book has sixteen well researched thought provoking papers and case studies from India Europe Brazil and USA The judicious mix of conceptual papers and case studies will help the students managers to understand and internalize the process and stages of knowledge management from different countries It will also make them visualize the practice of knowledge management across the diverse organizations and countries

*Policing Organized Crime* Petter Gottschalk, 2009-08-26 When criminal activity is as straightforward as a child's game of cops and robbers the role of the police is obvious but today's bad guys don't always wear black In fact the most difficult criminals to cope with are those who straddle the gray divide between licit and illicit activity Many of these nefarious sorts operate on the fringe of soci

## **Cybercrime and Cybersecurity in the Global South** Charlette Donalds, Corlane Barclay, Kweku-Muata

Osei-Bryson, 2022-04-05 The Global South is recognized as one of the fastest growing regions in terms of Internet population as well as the region that accounts for the majority of Internet users. However, it cannot be overlooked that with increasing connectivity to and dependence on Internet-based platforms and services, so too is the potential increased for information and cybersecurity threats and attacks. Further, it has long been established that micro, small, and medium enterprises (MSMEs) play a key role in national economies, serving as important drivers of economic growth in Global South economies. Yet little is known about information security, cybersecurity, and cybercrime issues and strategies contextualized to these developing economies and MSMEs.

**Cybercrime and Cybersecurity in the Global South: Concepts, Strategies, and Frameworks for Greater Resilience** examines the prevalence, nature, trends, and impacts of cyber-related incidents on Global South economies. It further explores cybersecurity challenges, potential threats, and risks likely faced by MSMEs and governments of the Global South. A major thrust of this book is to offer tools, techniques, and legislative frameworks that can improve the information data and cybersecurity posture of Global South governments and MSMEs. It also provides evidence-based best practices and strategies relevant to the business community and general Information Communication Technology (ICT) users in combating and preventing cyber-related incidents. Also examined in this book are case studies and experiences of the Global South economies that can be used to enhance students' learning experience.

Another important feature of this book is that it outlines a research agenda to advance the scholarship of information and cybersecurity in the Global South.

**Features:** Cybercrime in the Caribbean, Privacy and security management, Cybersecurity compliance behaviour, Developing solutions for managing cybersecurity risks, Designing an effective cybersecurity programme in the organization for improved resilience, The cybersecurity capability maturity model for sustainable security advantage, Cyber hygiene practices for MSMEs, A cybercrime classification ontology.

**Knowledge Management Systems: Value Shop Creation** Gottschalk, Petter, 2006-09-30 This book combines knowledge management with other subject areas within the management information systems field, using contingent approaches to linking knowledge management to other IT management topics and its uses.

**Entrepreneurship and Organised Crime** Petter Gottschalk, 2009-01-01 *Entrepreneurship and Organised Crime* provides a much-needed and original overview of the boundary between legal and illegal entrepreneurship. It will appeal to a wide variety of readers interested in new perspectives on entrepreneurship. The text is clearly structured and systematically explores the basics of organised crime as an entrepreneurial business enterprise. Petter Gottschalk draws upon several theoretical strands, including organisational, sociological, managerial, historical, and practical perspectives, in providing an insight into organised crime activity.

Julia Davidson, Kingston University, UK. *Entrepreneurship and Organised Crime* tarnishes the conventional clean and wholesome depiction of entrepreneurs by bringing to life the lived and messy realities of entrepreneurs who operate illegal businesses. Moving beyond the standard textbook positive and celebratory portrayal of entrepreneurs, this

volume addresses in a highly readable manner both the entrepreneurial aspects of criminal endeavour as well as the criminal aspects of entrepreneurial endeavour It is an essential and compelling read for scholars of entrepreneurship and criminology Colin C Williams University of Sheffield UK Entrepreneurship and Organised Crime provides a fresh and realistic insight into the problem of organised crime activity and the role of entrepreneurs in illegal business Petter Gottschalk takes a close look at how some entrepreneurs choose to develop criminal business enterprises Stage models for criminal entrepreneurs are presented and entrepreneurial leadership and management are discussed This book illustrates how so many issues for entrepreneurs and entrepreneurship are similar in legal and illegal business At the same time all the cases in the book show how different many of the individual criminal entrepreneurs are In sum this book provides a pragmatic view of another kind of entrepreneurship not frequently discussed in a neutral way This book will be warmly welcomed by scholars and researchers looking for a different perspective of entrepreneurship or interested in criminology This will also be a good reference tool for students at police academies

**Knowledge Management**, 2008 This is the defining reference source for all theories concepts and methodologies within the KM discipline It includes chapters on Implementing KM in Organizations KM Systems Acceptance KM Communication Knowledge Representation Knowledge Sharing KM Success Models Knowledge Ontology and Operational KM and provides libraries with the defining reference to the field Provided by publisher

*Managing IT Outsourcing Performance* Solli-Sæther, Hans, Gottschalk, Petter, 2009-09-30 This book provides a collection of methodologies and tools that can be used in managing relationships and performance of IT outsourcing Provided by publisher

*Business Intelligence: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2015-12-29 Data analysis is an important part of modern business administration as efficient compilation of information allows managers and business leaders to make the best decisions for the financial solvency of their organizations Understanding the use of analytics reporting and data mining in everyday business environments is imperative to the success of modern businesses Business Intelligence Concepts Methodologies Tools and Applications presents a comprehensive examination of business data analytics along with case studies and practical applications for businesses in a variety of fields and corporate arenas Focusing on topics and issues such as critical success factors technology adaptation agile development approaches fuzzy logic tools and best practices in business process management this multivolume reference is of particular use to business analysts investors corporate managers and entrepreneurs in a variety of prominent industries

*Strategies and Responses to Crime* Melchor de Guzman, Aideo Mintie Das, Dilip K. Das, 2011-10-17 Every year esteemed scholars and practitioners meet at the International Police Executive Symposium to discuss contemporary issues in policing and share ideas about effective strategies in their jurisdictions Drawn from the proceedings at the Thirteenth Annual Meeting held in Turkey and updated with new developments since the conference
