Indonesia and the Asian Development Bank Peter McCawley,2020-06-01 This publication is a history of the partnership between Indonesia and the Asian Development Bank ADB When Indonesia became a founding member of the bank in 1966 the country faced daunting challenges In the five decades that passed both Indonesia and ADB have evolved in remarkable ways Indonesia developed rapidly through the late 1990s yet faced a difficult time of adjustment after the Asian financial crisis of 1997 1998 The country has since resumed growth in the last decade For its part ADB has widened its activities in Indonesia transforming from a project oriented bank into a broad based development institution This effective partnership reflects Indonesia s success in working with the international community in the past 50 years

2001 Annual Review of Development Effectiveness William Battaile,2002-01-01 This is the fifth annual review which explores long term development effectiveness trends and analyses the choice of lending and non lending instruments and activities to achieve World Bank development objectives The 2001 review confirms a significant improvement in the outcomes of the Banks lending performance It finds that selecting the right combination and sequence of activities for a particular objective can make the difference between success and failure whether at individual project level for country assistance programmes or for global sectoral and thematic priorities At each level there is unexploited potential to maximise strategic selectivity and this is especially important in countries with a poor policy framework or acute institutional development needs

Financial Sector Assessment Program Lily L. Chu,2006-01-01 The Financial Sector Assessment Program FSAP is a major initiative undertaken jointly by the World Bank and the IMF in response to the financial crises of the late 1990s The ultimate objectives of the program are i the identification and resolution of financial sector vulnerabilities and their macroeconomic stability implications and ii fostering financial sector development and its contribution to economic growth In addition the FSAP was expected to help the Bank Fund and other institutions design appropriate assistance to address issues identified by the FSAP The evaluation found that the FSAP is a good quality diagnostic tool Joint Bank Fund cooperation has allowed an integrated approach towards financial sector vulnerabilities and

development needs and has expanded the depth and quality of the skills base The assessments however fall short in prioritizing recommendations and integrating the findings and recommendations of the assessments into its overall programs

RealWorld Evaluation Michael Bamberger,Linda Mabry,2019-07-31 RealWorld Evaluation Working Under Budget Time Data and Political Constraints addresses the challenges of conducting program evaluations in real world contexts where evaluators and their clients face budget and time constraints The new Third Edition includes a new chapter on gender equality and women s empowerment and discussion of digital technology and data science

The Big Business of Small Enterprises World Bank,2015-02-13 The World Bank Group promotes small and medium enterprise SME growth through both systemic and targeted interventions Targeting means focusing benefits on one size class of firms to the exclusion of others Targeted support for SMEs is a big business for the World Bank Group averaging around 3 billion a year in commitments expenditures and gross exposure over the 2006 12 period In the context of broader reforms such targeted support can be a powerful tool Targeting SMEs is not an end in itself but a means to create economies that can employ more people and create more opportunity for citizens to achieve prosperity A thriving and growing SME sector is associated with rapidly growing economies A central challenge is to level the economic playing field by ensuring dynamic markets strengthening market support institutions and removing constraints to participation IEG found that financial sector development can have both a pro growth and pro poor impact by alleviating SMEs financing constraints enabling new entry of firms and entrepreneurs and better resource allocation Layered on top of this are targeted forms of assistance these interventions may build on a foundation of more systemic reforms may come in tandem with them or may in fact be a means to build systemic reforms from the bottom up Any credible justification of targeted support to SMEs must be focused on establishing well functioning markets and institutions not simply providing a temporary supply of benefits to a small group of firms during a project s lifespan Thus targeted interventions need to leverage resources to produce broader benefits for institutions and markets To make targeted support for SMEs more effective the World Bank Group needs to do several things Clarify its approach to targeted support to SMEs Enhance the support s relevance and additionality Institute a tailored research agenda Strengthen guidance and quality control for such support Reform MIGA s Small Investment Program
