Hotel Pre Opening Manual:

Hotel Pre-opening Manual Charles Ober, 1997 *Hotel Law* Nelson Migdal, 2015-05-08 *Hotel Law Transactions* Management and Franchising presents a practical guide to the issues that face lawyers and industry leaders working in the hospitality field. It aims to develop the reader's understanding of the acquisition process and the complex relationships in management and franchise deals that dominate the hotel industry. This text is written primarily as a desktop reference for legal practitioners working in the hotel law field and is also suitable for students studying towards hotel and hospitality careers both at an undergraduate and law school or graduate level. The highly experienced author, contributors and editors offer insights into the industry players and their preferred positions, desired outcomes and the potential pitfalls that can ensnare even the most well planned deals. With broad coverage of the rapidly growing field of hospitality law including gaming, recreation and amenities, the book's approach examines the dominant models of hotel ownership, management and franchising and includes independent hotels and the move towards complex resorts. The book's coverage of key legal topics ranges from real estate to intellectual property, contracts and finance. *Hotel Law* will give readers an understanding of the hospitality industry from the perspective of the transactional practitioner while examining the multi-party relationships and agreements that develop between an owner, operator, licensor and lender.

Developing Hospitality Properties and Facilities Josef Ransley, Hadyn Ingram, Debra Adams, 2022-06-30. In light of the tumultuous global changes which have dramatically affected the hospitality business, the third edition of *Developing Hospitality Properties and Facilities* provides insight into the reality of developing hospitality properties in challenging international contexts. Since its successful first publication in 2000 and subsequent second edition in 2004, *Developing Hospitality Properties and Facilities* has sought to model and demystify the process of designing, planning, constructing and sustaining hospitality properties. The third edition boasts an impressive array of academic and professional contributors from Europe, North America, South America, Asia, Africa and the Middle East and 12 case studies and issues concerning individual hotels and international regions and addressing issues of technology, revenue management and fee structures. This edition recognizes that in order for the hospitality sector to overcome periodic problems such as global pandemics, it is important to inform academic and professional readers so that they can ensure that future developments are sustainable, environmentally friendly and resilient in the longer term. Written for hospitality owners, developers, investors and managers and suitable for students, this book aims to bridge the gap between generic and applied texts using a model-based approach to clarify the process in an informed, non-technical way.
