O'Donnell,Johnmarshall Reeve,Jeffrey K. Smith,2011-12-06 Teachers help students learn develop and realize their potential
To become successful in their craft teachers need to learn how to establish high quality relationships with their students and
they need to learn how to implement instructional strategies that promote students learning development and potential To
prepare pre service teachers for the profession the study of educational psychology can help them to better understand their
students and better understand their process of teaching Such is the twofold purpose of Educational Psychology to help pre
service teachers understand their future students better and to help them understand all aspects of the teaching learning
situation The pursuit of these two purposes leads to the ultimate goal of this text namely to help pre service teachers become
increasingly able to promote student learning development and potential when it becomes their turn to step into the
classroom and take full time responsibility for their own classes Houghton Mifflin Reading Houghton Mifflin
