Knowing Capitalism Published In Association With Theory Culture Society:

Knowing Capitalism Nigel Thrift, 2005-01-26 This is an ambitious original and complex treatment of key aspects of contemporary capitalism. It makes a major contribution because it profoundly destabilizes the scholarship on globalization, the so-called new economy, information technology, distinct contemporary business cultures and practices. Saskia Sassen, author of *Globalization and its Discontents*. Nigel Thrift offers us the sort of cultural analysis of global capitalism that has long been needed: one that emphasizes the innovative energy of global capitalism. The book avoids stale denunciations and offers instead a view of capitalism as a form of practice. Karin Knorr Cetina, Professor of Sociology, University of Konstanz, Germany. Capitalism is well known for producing a form of existence where everything solid melts into air. But what happens when capitalism develops theories about itself? Are we moving into a condition in which capitalism can be said to possess a brain? These questions are pursued in this sparkling and thought-provoking book. Thrift looks at what he calls the cultural circuit of capitalism, the mechanism for generating new theories of capitalism. The book traces the rise of this circuit back to the 1960s when a series of institutions locked together to interrogate capitalism to the present day when these institutions are moving out to the Pacific basin and beyond. What have these theories produced? How have they been implicated in the speculative bubbles that characterized the late twentieth century? What part have they played in developing our understanding of human relations? Building on an interdisciplinary approach which embraces the core social sciences, Thrift outlines an exciting new theory for understanding capitalism. His book is of interest to readers in geography, social theory, anthropology, and cultural economics.

Automobilities Mike Featherstone, Nigel Thrift, John Urry, 2005-07-12 Mobility, flows, movement and migration in social life has emerged as a central area of sociological debate, yet one of its most dominant forms, automobility, has remained largely ignored. *Automobilities* presents one of the first examinations of the car and its promise of autonomy and mobility.

Industrial Design, Competition and Globalization G. Rusten, J. Bryson, 2009-11-19 Economic activities are becoming increasingly globalised. One result being that for companies in developed market economies, price-based competition is being replaced or supplemented by other forms of competitiveness. This book explores the shift towards design-based competitiveness and the escalation in the design intensity of goods and services. **Make, Fail, Repeat: Creative**

Labor in the Start-Up Age Alberto Lusoli, 2025-07-14 This book examines how the concept of Start-up has transcended its original acceptance as a synonym for an early-stage hi-tech company to become a historically specific way of knowing and acting in the world. Start-up is everywhere. The term has been employed since the 1970s to indicate any company with a limited operating history and in a phase of market discovery. In the 1990s, the term gained a more precise connotation: one connected to the kind of experimental, technology-based and venture-backed businesses that became the most visible embodiment of the New Economy techno-utopianism. Today, the term is widely known and used beyond managerial circles so much so that it has become a subject of TV shows such as *Shark Tank*, MTV's *Dropout* and HBO's irreverent series *Silicon*.

Valley Start up is no longer just an economic and managerial concept but the book argues also a cultural phenomenon that is reshaping the way we conceive work in the 21st century It does this by furthering the idea that withdrawal from traditional disciplinary regimes such as formal education and wage labor is a necessary step on the path toward professional realization and personal freedom But what happens when one decides to leave the safe harbor of regular employment and set sail on the tumultuous waters of independent work The book addresses this question through a 22 month ethnographic investigation of the Vancouver new media and digital industries Through interviews with creative practitioners and participation in informal gatherings for tech workers the book provides a compelling perspective on creative work in the start up age

Fashion and Textiles: Breakthroughs in Research and Practice Management Association, Information Resources, 2017-08-11 Management technique and operation strategies vary depending on the particular industry This allows businesses in that industry to thrive and increase competitive advantage Fashion and Textiles Breakthroughs in Research and Practice is a critical source of academic knowledge on the latest business and management perspectives within the fashion and textiles industry Highlighting a range of pertinent topics such as marketing consumer behavior and value creation this book is an ideal reference source for academics professionals researchers students and practitioners interested in emerging trends in global fashion and textile management

The Provoked Economy Fabian Muniesa, 2014-05-16 Do things such as performance indicators valuation formulas consumer tests stock prices or financial contracts represent an external reality Or do they rather constitute in a performative fashion what they refer to The Provoked Economy tackles this question from a pragmatist angle considering economic reality as a ceaselessly provoked reality It takes the reader through a series of diverse empirical sites from public administrations to stock exchanges from investment banks to marketing facilities and business schools in order to explore what can be seen from such a demanding standpoint It demonstrates that descriptions of economic objects do actually produce economic objects and that the simulacrum of an economic act is indeed a form of realization It also shows that provoking economic reality means facing practical tests in which what ought to be economic or not is subject to elaboration and controversy This book opens paths for empirical investigation in the social sciences but also for the philosophical renewal of the critique of economic reality It will be useful

for students and scholars in social theory sociology anthropology philosophy and economics The Handbook of Visual Culture Ian Heywood, Barry Sandywell, 2017-04-20 Visual culture has become one of the most dynamic fields of scholarship a reflection of how the study of human culture increasingly requires distinctively visual ways of thinking and methods of analysis Bringing together leading international scholars to assess all aspects of visual culture the Handbook aims to provide a comprehensive and authoritative overview of the subject The Handbook embraces the extraordinary range of disciplines which now engage in the study of the visual film and photography television fashion visual arts digital media geography philosophy architecture material culture sociology cultural studies and art history Throughout the Handbook is responsive to the cross disciplinary nature of many of the key questions raised in visual culture around digitization globalization cyberculture surveillance spectacle and the role of art The Handbook guides readers new to the area as well as experienced researchers into the topics issues and questions that have emerged in the study of visual culture since the start of the new millennium conveying the boldness excitement and vitality of the subject **Magical Realist Sociologies of Belonging and Becoming** Rodanthi Tzanelli, 2020-02-28 At the bottom of the sea freedivers find that the world bestows humans with the magic of bodily and mental freedom binding them in small communities of play affect and respect for nature On land rational human interests dissolve this magic into prescriptive formulas of belonging to a profession a nation and an acceptable modernity The magical exploration is morphed by such multiple interventions successively from a pilgrimage to a cinematic and digital articulation of an anarchic project to an exercise in national citizenship and finally a projection of post imperial cosmopolitan belonging This is the story of an embodied relational and affective journey the making of the explorer of worlds At its heart stands a clash between individual and collective desires to belong aspirations to create and the pragmatics of becoming recognised by others The primary empirical context in which this is played is the contemporary margins of European modernity the post troika Greece With the project of a freediving artist who stages an Underwater Gallery outside the iconic island of Amorgos as a sociological spyglass it examines the networks of mobility that both individuals and nations have to enter to achieve international recognition often at the expense of personal freedom and alternative pathways to modernity Inspired by fusions of cultural pragmatics phenomenology phanerology the morphogenetic approach feminist posthumanism and especially postcolonial theories of magical realism this study examines interconnected variations of identity and subjectivity in contexts of contemporary mobility digital and embodied travel tourism As a study of cultural emergism the book will be of interest to students and scholars in critical theory cultural postcolonial and decolonial studies and tourism pilgrimage theory **The British National Bibliography** Arthur James Wells, 2005 **Sociology in the Twenty-First Century** Simon Susen, 2020-10-17 This book examines key trends debates and challenges in twenty first century sociology To this end it focuses on significant issues surrounding the nature of sociology What is sociology the history of sociology How has sociology evolved and the study of sociology How can or should we make sense of sociology

These issues have been and will continue to be essential to the creation of conceptually informed methodologically rigorous and empirically substantiated research programmes in the discipline. Over the past years however there have been numerous disputes and controversies concerning the future of sociology. Particularly important in this respect are recent and ongoing discussions on the possibilities of developing new and arguably post classical forms of sociology. The central assumption underlying most of these projects is the contention that a comprehensive analysis of the principal challenges faced by global society requires the construction of a sociology capable of accounting for the interconnectedness of social actors and social structures across time and space. This book provides a cutting edge overview of crucial past present and possible future trends debates and challenges shaping the pursuit of sociological inquiry.

Simon Susen, one of the most knowledgeable scholars in the contemporary social sciences, examines the key challenges with which sociology is confronted today. This book is a must read for professional sociologists as well as for those studying the subject.

Luc Boltanski, cole des Hautes tudes en Sciences Sociales Paris France. Simon Susen provides a balanced update on sociology's theoretical methodological and institutional resources as well as challenges in today's complicated local and global social worlds. Fortunately he has innovative and practical recommendations for ensuring the cutting edge relevance of sociological thinking. This book is an excellent choice for undergraduate and postgraduate students as well as for the general reader.

Sandra Harding, University of California Los Angeles USA. A comprehensive and judicious account of the intellectual and material state of sociology based on omnivorous reading and incisive analysis. The writing is beautifully clear and the book is a major contribution to the self understanding of the discipline.

William Outhwaite, Newcastle University UK. **Urban Politics and Cultural Capital** Ma Haili, 2016-02-11. This book tells the story of how a regional Chinese theatrical form, Shanghai Yue Opera, evolved from the all male beggar's song of the early twentieth century to become the largest all female opera form in the nation, only to face increasing pressure to survive under Chinese political and economic reforms in the new millennium. Previous publications have focused mainly on the historical development of Chinese theatre with emphasis placed on Beijing opera. This is the first book to take an interdisciplinary approach to the story of the Shanghai Yue Opera, bringing history, arts management, central and regional government policy, urbanisation, gender, media and theatre artistic development in one. Through the story of the Shanghai Yue Opera House market reform, this book facilitates an understanding of the complex Chinese political economic situation in post socialist China. This book suggests that as state art institutions are key organs of the Communist party gaining legitimacy, the vigorous evolution and struggle of the Shanghai Yue Opera house in fact directly mirrors the Communist Party internal turmoil in the new millennium to gain its own legitimacy and survival.

[Southeast Asian Energy Transitions](#) Dr Mattijs Smits, 2015-10-28. Addressing the apparent tensions between modernity and sustainability in Southeast Asia, this book offers novel insights into the global challenge of moving towards a low carbon energy system. With an original and accessible take on social theory related to energy transitions, modernity and sustainability, Mattijs Smits argues for a

reinvigorated geography of energy He also challenges universalistic and linear assumptions about energy transitions and makes the case for energy trajectories stressing embeddedness contingency and connections between scales *Palgrave Handbook of Critical Posthumanism* Stefan Herbrechter,Ivan Callus,Manuela Rossini,Marija Grech,Megen de Bruin-Molé,Christopher John Müller,2022-11-28 *Palgrave Handbook of Critical Posthumanism* is a major reference work on the paradigm emerging from the challenges to humanism humanity and the human posed by the erosion of the traditional demarcations between the human and nonhuman This handbook surveys and speculates on the ways in which the posthumanist paradigm emerged transformed and might further develop across the humanities With its focus on the posthuman as a figure on posthumanism as a social discourse and on posthumanisation as an on going historical and ontological process the volume highlights the relationship between the humanities and sciences The essays engage with posthumanism in connection with subfields like the environmental humanities health humanities animal studies and disability studies The book also traces the historical representations and understanding of posthumanism across time Additionally the contributions address genre and forms such as autobiography games art film museums and topics such as climate change speciesism anthropocentrism and biopolitics to name a few This handbook considers posthumanism s impact across disciplines and areas of study *Health and Care in Neoliberal Times* NEIL SMALL,2023-02-17 This book argues that neoliberal changes in health and social care go beyond resource allocations priority setting and privatisation and manifest in an invidious erosion of the quality of our social relationships including relationships between care provider and care recipient Critically examining the concept of culture and why shifts in what is considered acceptable practice happen the book explores the conduct of conduct It draws together what we know about neoliberalism s impact on the economy and public services with research around governmentality and social change Looking at breakdowns in the quality of care in the NHS and social care across a range of settings it holds that macro influences such as austerity and marketisation cannot explain everything and many of the damaging things that go on in care breakdowns occur in micro interactions between care provider and care recipient Analysing the interactions between the calculations of political centres the strength of professional identities the effectiveness of oversight and supervision and the biographies of protagonists Neil Small problematises the focus on culture and culture change in our response to care failures and examines what a different approach to care might involve Exploring the interaction of politics economics and social change and their impact on health care and the wider welfare state this is an important contribution for students and researchers in health and social care sociology political science and management studies *Defining Web3* Quinn DuPont,Donncha Kavanagh,Paul Dylan-Ennis,2024-07-01 Bringing together researchers artists and organisational designers to explore Web3 s potential as a progressive platform for creative social coordination this uniquely experimental volume presents the state of the art in socio cultural and economic research into cryptocurrencies and blockchains *Technofutures, Nature and the Sacred* Professor
