*Popular Photography*, 1993-07      *Popular Photography*, 1990-12      Manuals Combined: U.S. Navy Journalist Basic, Journalist Advanced And Journalist 3 & 2 Training Publications, Over 1,300 total pages. To the young man or woman choosing a Navy career field, whether for one enlistment or for 30 years, the journalist rating offers endless avenues for an imaginative yet mature thinker. Many of the duties and responsibilities of the journalist rank among Americans' favorite hobbies and pastimes, such as writing, broadcasting, and photography. The Navy journalist learns and practices a distinguished profession and becomes an official representative of the Navy in public affairs matters. The first enlisted specialists to work full time in the field of Navy journalism were Naval Reserve personnel selected during the early years of World War II. They were designated Specialist X Naval Correspondents. In 1948, under a major overhaul affecting almost every enlisted rating, the journalist JO rating was established. MAJOR TASKS AND RESPONSIBILITIES LEARNING OBJECTIVE: Identify the major tasks and responsibilities of the Navy journalist; the personal traits required for one to best perform the duties of the rating; the applicable NECs and the purpose of the JO 3 & 2 training manual. TRAMAN. In our democratic society, government depends on the consent of the governed. This important principle means that in the long run, the United States government does only

what the people want it to do Therefore we can have a Navy only if the people know and understand the importance of the Navy and support it The Navy like the other services depends on this country's citizens for the four key tools of its trade: personnel, money, materials, and the authority to carry out its mission As a Navy journalist your main function will be to make the facts about your Navy available to the Navy's three main publics: the people at your ship or station, Navy people in general, and the people of the United States as a whole

Confident Computing for the Over 50s Bob Reeves, 2010-03-26 Do you feel that you have been left behind in the technological revolution Assuming no prior knowledge of using a computer this book is written in a practical, light-hearted and non-technical style to take the terror out of the technology Bob Reeves approaches the subject in a highly accessible way focusing on the computer applications of most interest to middle and third agers including correspondence, photography, shopping online, personal budgets and researching your family history It begins with the very basics and ends with an invaluable jargon-buster glossary The book is made up of a series of self-contained chapters with the emphasis on what the computer is being used for rather than the software needed For example rather than a chapter on word processing there is a chapter on letter writing rather than desktop publishing there is making a newsletter and making cards for all occasions rather than one on digital photography there is getting photographs on to the computer etc There will be clear instructions supported with screenshots, tips and hints throughout This approach sets it apart from other books on basic computer skills as it covers what you really want to do with your computer breaking down any technical barriers and making the book totally relevant to the novice computer user
