Hemp Bound Dispatches From The Front Lines Of The Next Agricultural Revolution:

Hemp Bound Doug Fine, 2014-03-12 Doug has created a blueprint for the America of the future Willie Nelson The stat sheet on hemp sounds almost too good to be true its fibers are among the planet s strongest its seed oil the most nutritious and its potential as an energy source vast and untapped Its one downside For nearly a century it s been illegal to grow industrial cannabis in the United States even though Betsy Ross wove the nation s first flag out of hemp fabric Thomas Jefferson composed the Declaration of Independence on it and colonists could pay their taxes with it But as the prohibition on hemp s psychoactive cousin winds down one of humanity s longest utilized plants is about to be reincorporated into the American economy Get ready for the newest billion dollar industry In *Hemp Bound Dispatches from the Front Lines of the Next Agricultural Revolution* bestselling author Doug Fine embarks on a humorous yet rigorous journey to meet the men and women who are testing researching and pioneering hemp s applications for the twenty first century From Denver where Fine hitches a ride in a hemp powered limo to Asheville North Carolina where carbon negative hempcrete insulated houses are sparking a mini housing boom to Manitoba where he raps his knuckles on the hood of a hemp tractor and finally to the fields of east Colorado where practical farmers are looking toward hemp to restore their agricultural economy Fine learns how eminently possible it is for this misunderstood plant to help us end dependence on fossil fuels heal farm soils damaged after a century of growing monocultures and bring even more taxable revenue into the economy than its smokable relative Fine s journey will not only leave you wondering why we ever stopped cultivating this miracle crop it will fire you up to sow a field of it for yourself for the nation s economy and for the planet

Grass, Soil, Hope Courtney White, 2014 This book explores the impact an increase in the carbon content in soil would have on greenhouse gas emissions in the atmosphere and offers ways to accomplish this

Craft Weed, with a new preface by the author Ryan Stoa, 2024-04-02 How the future of post legalization marijuana farming can be sustainable local and artisanal What will the marijuana industry look like as legalization spreads Will corporations sweep in and create Big Marijuana flooding the market with mass produced weed Or will marijuana agriculture stay true to its roots in family farming and reflect a sustainable local and artisanal ethic In *Craft Weed* Ryan Stoa argues that the future of the marijuana industry should be powered by small farms that its model should be more craft beer than Anheuser Busch To make his case for craft weed Stoa interviews veteran and novice marijuana growers politicians activists and investors He provides a history of marijuana farming and its post hippie resurgence in the United States He reports on the amazing adaptability of the cannabis plant and its genetic gifts the legalization movement regulatory efforts the tradeoffs of indoor versus outdoor farms and the environmental impacts of marijuana agriculture To protect and promote small farmers and their communities Stoa proposes a Marijuana Appellation system modeled after the wine industry which would provide a certified designation of origin to local crops A sustainable local and artisanal farming model is not an inevitable future for the marijuana industry but *Craft Weed* makes clear that marijuana legalization has the

potential to revitalize rural communities and the American family farm As the era of marijuana prohibition comes to an end now is the time to think about what kind of marijuana industry and marijuana agriculture we want Craft Weed will help us plan for a future that is almost here

Hemp Rising Christopher Penn, 2025-04-18 *Hemp Rising* is a meticulously researched and passionately written call to restart industrial hemp as a cornerstone of a regenerative future Christopher Penn founder of Mr Hemp House weaves together history science policy and practical applications to demonstrate how one plant can revolutionize multiple industries and restart a hemp economy on a national scale This economic resurgence will create new jobs reduce our reliance on environmentally harmful industries restart US manufacturing and pave the way for a more sustainable future The book begins with a captivating historical account tracing hemp's use across 10 000 years of civilization from ancient Chinese papermaking to its foundational role in naval empires and colonial economies Hemp was essential to war exploration medicine and domestic life In the 20th century industrial lobbyists media propaganda and political maneuvering nearly erased this plant from public memory Penn powerfully details its prohibition highlighting figures like William Randolph Hearst and Harry Anslinger and their role in conflating hemp with marijuana The resulting publicity criminalized a harmless and beneficial crop to protect the interests of the timber petroleum and plastics industries The second section explores hemp's modern comeback The book highlights hemp as a hero of regenerative architecture from the Gaia line of products of Mr Hemp House to hempcrete and other green construction carbon negative insulation and mold resistant wall installations Its use in textiles plastics batteries fuel and even aerospace composites showcases its versatility and inspires a new wave of innovation The nutritional section delves into hemp's value as a complete protein and superfood spotlighting hemp derived cannabinoids like CBD and CBG for wellness This information will leave the readers feeling more knowledgeable about the health benefits of hemp In the later chapters Penn focuses on reform He explores the legal timeline of hemp Starting with its prohibition in 1937 the 2018 Farm Bill outlines the cultural changes driven by activists scientists and entrepreneurs He casts a compelling vision of a circular economy where hemp is cultivated not for short term profit but for long term global healing In this model hemp is grown processed and used in a way that minimizes waste and maximizes the value of the plant creating a sustainable and regenerative system More than just a reference *Hemp Rising* is a manifesto A statement It's written for visionaries farmers builders designers policy makers and citizens who see hemp not as a buzzword but as a mandate Backed by historical scope and scientific facts the book argues that hemp is not an alternative but the original And in reclaiming it we reclaim a future worth building

American Hemp Farmer Doug Fine, 2020-04-23 The inside story of the world's most fascinating and lucrative crop from gonzo journalist turned hemp farmer Doug Fine Hemp the non psychoactive variant of cannabis or marijuana and one of humanity's oldest plant allies has quietly become the fastest industry ever to generate a billion dollars of annual revenue in North America From hemp seed to hemp fiber to the currently ubiquitous cannabinoid CBD this resilient crop is leading the way toward a new regenerative economy that

contributes to soil and climate restoration but only if we do it right In American Hemp Farmer maverick journalist and solar powered goat herder Doug Fine gets his hands dirty with healthy soil and sticky with terpenes growing his own crop and creating his own hemp products Fine shares his adventures and misadventures as an independent regenerative farmer and entrepreneur all while laying out a vision for how hemp can help right the wrongs of twentieth century agriculture and how you can be a part of it
