The Herder Symbol Dictionary, 1988 *The Female Ancestors of Christ* Ann Belford Ulanov, 2020 The spiritual power of the Feminine shines forth in this psychological study of four Old Testament heroines from Jesus family tree Tamar Rahab Ruth and Bathsheba are the only women mentioned by name in the Gospels genealogies and for Ann Belford Ulanov this indicates that they impart something essential to the lineage of Christ By exploring their brave and unconventional lives she demonstrates how salvation enters the world in the feminine mode of being human through these women s embodiment of such powerful and deeply feminine qualities as ingenuity audacity determination compassion seduction and devotion Like bolts of lightning the stories of these outcast virgins illuminate what spiritual wholeness can be in the lives of contemporary women and men Ann Ulanov s riveting insights into their daring acts reveal their deep significance in the genealogy of Jesus and expand our understanding of the words courage and love Marion Woodman author of *Addiction to Perfection* and *Leaving my Father s House* *Fallen Animals* Zohar Hadromi-Allouche, 2017-10-05 The premise of *Fallen Animals* is that some how and in some way The Fall of Adam and Eve as related in the Bible has affected all living beings from the largest to the smallest from the oldest to the youngest regardless of gender and geography The movement from the blissful arena of the Garden of Eden to the uncertain reality of exile altered in an overt or nuanced fashion the attitudes perceptions and consciousness of animals and humanity alike Interpretations of these reformulations as well as the original story of the Paradise Garden have been told and retold for millennia in a variety of cultural contexts languages societies and religious environments Throughout all those retellings animals have been a constant presence positively and negatively actively and passively from the creation of birds fish and mammals to the agency of the serpent in the Fall narrative The serpent in the Garden of Eden is but one example of the ambivalence which has characterized the human animal relationship over the centuries both across and within cultures societies and traditions The book examines the interpretations functions and interactions of the Fall physical moral artistic and otherwise as represented through animals or through human animal interactions **Evil Children in Religion, Literature, and Art** E. Ziolkowski, 2001-05-21 *Evil Children in Religion Literature and Art* explores the genesis development and religious significance of a literary and iconographic motif involving a gang of urchins usually male who mock or assault a holy or eccentric person typically an adult Originating in the biblical tale of Elisha s mockery 2 Kings 2 23 24 this motif recurs in literature hagiography and art from antiquity up to our own time strikingly defying the conventional Judeo Christian and Romantic image of the child as a symbol of innocence

Encyclopedia of Comparative Iconography Helene E. Roberts, 2013-09-05 First published in 1998 Routledge is an imprint of Taylor Francis an informa company **The Sacred Path Beyond Trauma** Ellen Macfarland, Ph.D., 2008-06-03 One of Graham Greene s characters famously said I suffer therefore I am suggesting that pain is an inescapable and perhaps incurable part of the human condition But must this be so Ellen Macfarland argues otherwise in *The Sacred Beyond Trauma*

Through the use of mythology stories from film and fiction real life examples and her personal history Macfarland shows that healing trauma is indeed possible using rich resources near at hand in nature The book explores major symbols of healing nature that can provide an impetus for personal transformation One of the case studies profiles Monty Roberts a well known horse trainer who overcame significant childhood abuse by working with horses and eventually fostering some forty children alongside his own biological family The key says Macfarland is using these and other natural symbols such as yin yang to balance the tension between trauma and numinosity sacredness transcendence resulting in the creation of a new way of being in the world Understanding this and the book's other nature based symbols can turn the distressed mind into a fertile field of spiritual awareness empowerment and lifelong growth

The Typic in Kant's "Critique of Practical Reason" Adam Westra, 2016-03-07 In a short chapter of the Critique of Practical Reason entitled On the Typic of the Pure Practical Power of Judgment Kant addresses a crucial problem facing his theory of moral judgment How can we represent the supersensible moral law so as to apply it to actions in the sensible world Despite its importance to Kant's project previous studies of the Typic have been fragmentary disparate and contradictory This book provides a detailed commentary on the Typic elucidating how it enables moral judgment by means of the law of nature which serves as the type or analogue of the moral law In addition the book situates the Typic both historically and conceptually within Kant's theory of symbolic representation While many commentators have assimilated the Typic to the aesthetic notion of symbolic hypotyposis in the third Critique the author contends that it has greater continuities with the theoretical notion of symbolic anthropomorphism in the Prolegomena As the first comprehensive book length study of the Typic that critically engages with the secondary literature this monograph fills an important gap in the research on Kant's ethics and aesthetics and provides a starting point for further inquiry and debate

Knots and their Untying: Essays on Psychological Dilemmas Ann Belford Ulanov, Using the image of knots that are hard and sometimes impossible to untie Ann Ulanov circles around the psychic dilemmas that entangle us sometimes for decades These can be heartrending to us and destructive to others even to those we love Yet these knots so peculiarly our own also open onto human problems we share with others even across the ages Hence working on our knots takes us far down to taproots of energy and far up and out to bring that vital aliveness into shared existence with others Knots thus comprise a ladder offering footholds and handholds for descending and ascending between what Jung calls Below and Above human and divine What are such knots What to do when forgiveness does not happen What to do with the inferiority of the inferior function With the question of how much lightning can we stand With the perils of individuation These are just a few examples from the essays in this book The reader is invited to browse the essays according to personal interest or to read straight through The surprise is that these vexing knots that tie us up and hold us down also give us a mooring they bind us to a path that is uniquely our own that can bear the fruit of our service to others and to the surrounding whole
