Los Angeles Eine Stadt Filmkulisse:

Los Angeles, a city on film Thom Andersen, 2008 *Norman M. Klein's »Bleeding Through: Layers of Los Angeles«* Jens Martin Gurr, 2023-01-02 In 2003 Norman M Klein's docufable *Bleeding Through* raised questions of urban aesthetics and memory as part of the multimedia documentary *Bleeding Through Layers of Los Angeles 1920 1986* Now 20 years later this important text is reissued along with several essays addressing its central themes such as the aesthetics and politics of urban memory the development of Los Angeles since the 20th century the role of urban imaginaries in US politics or media evolution in the 21st century The volume also features a long interview with Klein and two docufables from Klein's celebrated study *The History of Forgetting Los Angeles and the Erasure of Memory* one being the kernel of the novella the other imagining Walter Benjamin in L A Finally the book contains links to two films featuring much of the multimedia material contained in the first edition Landscape and Power in Geographical Space as a Social-Aesthetic Construct Olaf Kühne, 2018-02-13 This book examines the power definiteness of landscape from a social constructivist perspective with a particular focus on the importance of aesthetic concepts of landscape in development It seeks to answer the question of how societal notions of landscape emerge how they are individually updated and how these ideas affect the use and design of physical space It also analyzes how physical manifestations of societal activity impact on understandings of individual and societal landscapes and addresses the essential aspect of the social construction of landscape cultural specificity which in turn is discussed in the context of the expansion of a western landscape concept The book offers an unprecedented comprehensive and detailed examination of societal power relations in the context of landscape development The numerous case studies from the physical manifestation of modern spatial planning in the United States the power discourses concerning the design of model railway landscapes and the medial production of stereotypical landscape notions shed light on the complex and multilayered interactions of collective and individual landscape references It is a valuable resource for geographers sociologists landscape architects landscape planners and philosophers **Charting Literary Urban Studies** Jens Martin Gurr, 2020-12-10 Guided by the multifaceted relations between city and text *Charting Literary Urban Studies Texts as Models of and for the City* attempts to chart the burgeoning field of literary urban studies by outlining how texts in varying degrees function as both representations of the city and as blueprints for its future development The study addresses questions such as these How do literary texts represent urban complexities and how can they capture the uniqueness of a given city How do literary texts simulate layers of urban memory and how can they reinforce or help dissolve path dependencies in urban development What role can literary studies play in interdisciplinary urban research Are the blueprints or recipes for urban development that most quickly travel around the globe such as the creative city the green city or the smart city really always the ones that best solve a given problem Or is the global spread of such travelling urban models not least a matter of their narrative packaging In answering these key questions this book also advances a literary studies

and neo noir including key films personnel actors cinematographers composers directors producers set designers and writers themes issues influences visual style cycles of films e g amnesiac noirs the representation of the city and gender other forms comics graphic novels television and videogames and noir s presence in world cinema It is an essential reference work for all those interested in this important cultural phenomenon **Historical Dictionary of Holocaust Cinema** Robert C.

Lovable Crooks and Loathsome Jews T.S. Kord,2018-11-05 In the years leading up to the World Wars Germany and Austria saw an unprecedented increase in the study and depiction of the criminal Science journalism and crime fiction were obsessed with delinquents while ignoring the social causes of crime As criminologists measured criminals heads and debated biological predestination court reporters and crime writers wrote side splitting or heart rending stories featuring one of the most popular characters ever created the hilarious or piteous crook The author examines the figure of the crook and notions of Jewish criminality in a range of antisemitic writing from Nazi propaganda to court reporting to forgotten classics of crime fiction *Expressionist Film--new Perspectives* Dietrich Scheunemann,2003 Beginning with a fundamentally new

interpretation of Dr Caligari and with fresh views of other expressionist classics this book offers new perspectives on important alternative styles and genres that emerged in films by such eminent directors as Lubitsch Fritz Lang and E A Dupont *Haunted Families and Temporal Normativity in Hispanic Horror Films* Charles St-Georges,2018-04-20 This book examines the interactions between ghosts and families in three recent horror films from the Spanish speaking world that rather than explicitly referencing recent political violence speak to the societal conditions and everyday normative violence that serve as preconditions for political violence This study deconstructs intersectional processes of racially and sexually normative subject formation and its oppositional other ghostly erasure that are framed by a common temporal logic wherein full citizenship is contingent upon a nation s dominant notions of contemporaneity and whether individuals properly inhabit prescriptive timelines of re productivity St Georges s study explores ways in which ghosts and families are manipulated in each national imaginary as a strategy for negotiating volatility within symbolic order a tactic that can either

naturalize or challenge normative discourses As a literary and cinematic trope ghosts are particularly useful vehicles for the exploration of national imaginaries and the dominant or competing cultural attitudes towards a country's history and thus the articulation of a present political reality The rhetorical figure of the family is also key in this process as a mechanism for expressing national allegories for expressing generational anxieties about a nation's relationship to time and for organizing societies and social subjects as such interpellating them into or excluding them from national imaginaries By proposing these specific coordinates ghosts and families and by mapping their relationship between Spain and Latin America Troubling Timelines proposes a study of a temporal framework that besides bridging the traditional area studies divide across the Atlantic creates a space for interdisciplinary inquiry while also responding to increasing demand for studies that focus on intersectionality

Embodied Metaphors in Film, Television, and Video Games Kathrin Fahlenbrach, 2015-10-05 In cognitive research metaphors have been shown to help us imagine complex abstract or invisible ideas concepts or emotions Contributors to this book argue that metaphors occur not only in language but in audio visual media well This is all the more evident in entertainment media which strategically sell their products by addressing their viewers immediate reflexive understanding through pictures sounds and language This volume applies cognitive metaphor theory CMT to film television and video games in order to analyze the embodied aesthetics and meanings of those moving images
