Mass Media James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes

Mass Media and Society in a Changing World Minabere Ibelema, 2015-04-22 Books on mass media and society are often too elementary or too academic for upper level undergraduate students This anthology occupies the middle ground The articles are both scholarly and

readable They represent various methodological approaches including historical and critical cultural studies as well as qualitative and quantitative analyses What the articles have in common is that they provide scholarly insight without overly specialized vocabulary In effect the volume is intended to be accessible to upper level undergraduates while also providing cutting edge scholarship for graduate students and scholars A number of intertwined themes link the articles The most important is the far reaching impact of the libertarian philosophy on the development of the mass media and the latter's intersection with cultural transformation The second is the transactional nature of mass media and society with the two institutions interlocked in a loop of mutual impact Closely related is the impact of communication technology from Gutenberg's printing press in the 15th century to the digital technology of the 21st century The book also includes a summary of the major theories of mass communication

Minabere Ibelema Ph D Ohio State University is an Associate Professor of Communication Studies at the University of Alabama at Birmingham where he teaches Mass Media and Society among other courses His current research interest is in the press and democratization His book *The African Press Civic Cynicism and Democracy* won the 2009 Society of Professional Journalists Sigma Delta Chi Award for Research in Journalism He has also published several research articles as book chapters or in journals including *Journalism Communication Monographs Free Speech Yearbook Journal of Development Communication Newspaper Research Journal Journal of Radio Studies Journalism Mass Communication Educator and Current History*

Changing World Karol Jan Borowiecki,Neil Forbes,Antonella Fresa,2016-05-02 The central purpose of this collection of essays is to make a creative addition to the debates surrounding the cultural heritage domain In the 21st century the world faces epochal changes which affect every part of society including the arenas in which cultural heritage is made held collected curated exhibited or simply exists The book is about these changes about the decentring of culture and cultural heritage away from institutional structures towards the individual about the questions which the advent of digital technologies is demanding that we ask and answer in relation to how we understand collect and make available Europe s cultural heritage Cultural heritage has enormous potential in terms of its contribution to improving the quality of life for people understanding the past assisting territorial cohesion driving economic growth opening up employment opportunities and supporting wider developments such as improvements in education and in artistic careers Given that spectrum of possible benefits to society the range of studies that follow here are intended to be a resource and stimulus to help inform not just professionals in the sector but all those with an interest in cultural heritage Youth Lifestyles In A Changing World

Miles , Stephen,2000-05-01 This book suggests that the study of youth lifestyles is potentially more enlightening than traditional structural or cultural approaches In a society in which young people s transitions into adulthood are increasingly uncertain processes of individualization are central to young people s experience of social change This clear introduction to a complex field considers key aspects of young people s lifestyles such as their relationship to rave the media and consumption in general as a means of constructing identities in a rapidly changing world *Christianity and the Mass Media in America*

Quentin J. Schultze,2005-11-09 The mass media and religious groups in America regularly argue about news bias sex and violence on television movie censorship advertiser boycotts broadcast and film content rating systems government regulation of the media the role of mass evangelism in a democracy and many other issues In the United States the major disputes between religion and the media usually have involved Christian churches or parachurch ministries on the one hand and the so called secular media on the other Often the Christian Right locks horns with supposedly liberal Eastern media elite and

Hollywood entertainment companies When a major Protestant denomination calls for an economic boycott of Disney the resulting news reports suggest business as usual in the tensions between faith groups and media empires Schultze demonstrates how religion and the media in America have borrowed each other's rhetoric In the process they have also helped to keep each other honest pointing out respective foibles and pretensions Christian media have offered the public as well as religious tribes some of the best media criticism better than most of the media criticism produced by mainstream media themselves Meanwhile mainstream media have rightly taken particular churches to task for misdeeds as well as offered some surprisingly good depictions of religious life The tension between Christian groups and the media in America ultimately is a good thing that can serve the interest of democratic life As Alexis de Tocqueville discovered in the 1830s American Christianity can foster the habits of the heart that ward off the antisocial acids of radical individualism And as John Dewey argued a century later the media offer some of our best hopes for maintaining a public life in the face of the religious tribalism that can erode democracy from within Mainstream media and Christianity will always be at odds in a democracy That is exactly the way it should be for the good of each one
