in the midst of a routine arthroscopic reconstruction. How one deals with complications truly tests the mettle of the surgeon. Keeping one's cool in the midst of an intraoperative complication will be facilitated by having an algorithmic approach. We hope that this book will improve your outcome should these problems occur. Some complications are unavoidable. Arthrobro-sis or stiffness may take place in the best of hands. Infection may surface postoperatively in the most sterile OR. We provide you with the background to confront these challenges.
