Ocean Wave Energy Technology Alireza Shadmani, Mohammad Reza Nikoo, Amir H. Gandomi, 2025-08-25 This book demonstrates the transformative power of optimization algorithms in advancing ocean wave energy. It blends theory with practice to explain how computational optimization can dramatically enhance the efficiency and performance of wave energy converters devices that harness the power of ocean waves for renewable energy. The book's illustrations and detailed tables provide visual and comparative insights into the interactions between various algorithmic approaches and wave energy systems, helping make complex engineering concepts accessible to non-specialists. With real world case studies and innovative perspectives on algorithmic optimization in wave farm design, this book serves as a comprehensive gateway to understanding not only the fundamentals of wave energy but also the cutting edge techniques steering the field toward a more sustainable future.
