AWAKEN A MILLIONAIRE WITHIN YOU COACH DIVYA AHUJA,2022-12-20 You wake up every single day and do the same things over and over again do you call this life No my dear friend this is not life Life is about reinventing yourself every single day We have embodied this life so that we can thrive but are we really thriving in life Life is meant to thrive and day by day become a better version of yourself I have come a long way in healing my past and moving forward with joy and enthusiasm This book is an attempt to help you to do the same Though this book talks mainly about money Money is the most desired and

misunderstood energy I notice there are a lot of misconceptions about money A lot of fear and anger and we have so many judgments about money All this creates is a lot of blocks and barriers to achieving what we really desire People want money but don't understand the relationship between them and money People often have a love hate relationship with money so how will a relationship flourish if there is love and hate This book is a humble effort to bust some myths and then re align and reorganize your relationship with money If you are happy with your current life this book is not for you also if you are looking for some quick fix methods or looking for some magic pill that will solve all your problems this book is not for you I have simplified the concepts and given a few tools which have been scientifically proven and helped millions of people to achieve their desired goals The first step is to be aware and the next step is to look for solutions The very fact that you are reading this book means you are already aware and also looking for solutions So congratulations half of your goal is already achieved for the other half there are processes and tools Most of the concepts described here in this book are simplified tools from Neuro Linguistic Programming I have added my tips and examples and I share my own personal experiences with the you here This book will only help you to understand money as an energy and to help bridge the gap between your current state and your desired state 80 percent is the mindset and 20 percent is strategy We will keep the strategy 20 percent aside as this is not my area of expertise We will focus on the 80 percent mindset which actually shapes your reality To get the maximum benefit from this book for the time being keep aside whatever you know about money and read with an open mind without any judgments Please note whatever you knew about money till now if that was right your money reality would have been quite different hence it is of utmost importance for you to look at money in a different light or different perspective This will help you to change your association with money and live a better life Life is all about reinventing yourself every single day Take a moment and think as to what is really stopping you The key to success is to use these tools for at least 66 days According to research it takes approximately 22 days to delete old patterns 22 days to reprogram and 22 days to install new patterns and rewire the brain After 66 days a new neuronal pattern has been installed New neural patterns create changed behavior and changed attitudes which generate different results I would like to highlight that the result is directly proportionate to your own effort which means the more the effort the faster is the result The key is to be consistent with your effort despite all blocks that come your way Once you are willing to make this change and have made this commitment to yourself move forward because there is no looking back All problems are within us but the good news is all the solutions are also within us I will help you to activate your own resources and help yourselves These concepts if followed correctly will not only help you to create a better version of yourself but will also improve your relationship and you will enjoy better health and will also help in your self development
