

CASE STUDY: CVA – Cerebrovascular Accident, hemorrhagic stroke

History of Present Illness:

This 50-year-old female has not seen a doctor in a number of years and reports headaches over the past 2 weeks, which she treated at home with ibuprofen. The night of admission, she went to bed but woke around midnight to get some water and ibuprofen, and fell. Her husband heard her fall and when he arrived at her side he noted she was not moving her left side and was confused and disoriented. She also had garbled speech and was complaining of headache by holding her head and moaning. The husband called 911 and EMS arrived approximately 5 to 10 minutes after the fall. The paramedics stated that she vomited on way to the hospital and again in the emergency department (ED). Her blood pressure on way was 208 over palpable, she was in sinus rhythm, and her blood sugar was 91. The EMS assessment also noted confusion, garbled speech, and absence of movement on her left side to painful stimuli. EMS called the ED on way to initiate a "stroke alert." The estimated time elapsed from the fall to the patient's arrival in the ED is 15 to 20 minutes.

Due to the rapid decline of this patient's neurological status, the patient was intubated in the ED, IVF's with Normal Saline solution initiated. Her blood pressure was severely elevated on admission so intravenous hydralazine was administered. Citicoline 1gm intravenously as loading dose started.

Further physical examination and diagnostic evaluation was done. Stat ECG shows normal sinus rhythm. A stat non-contrast computed tomography (CT) scan of head and CT angiography followed. The patient's CT scan shows a large 6-cm right-sided intraparenchymal hemorrhage with a 16-mm leftward midline shift. While CT angiography results did not identify an aneurysm.

Hemorrhagic stroke was the initial diagnosis and pertinent stroke management followed due to rapidly declining neurological status, she was rushed to the operating room for an emergent right craniotomy and hemorrhagic clot removal. She was then admitted to the ICU for further monitoring and management.

Medical History:

- (-) diabetes, hypertension, heart disease, cancer, and seizure.
- (-) recent fevers, chills, nausea, vomiting, dyspnea, cough, pain in the chest, abdomen, or back.
- (-) complained of numbness, tingling, paresthesia, or edema of the extremities.
- (-) history of fall and trauma to the head for the past 2 weeks
- (+) recurrent headaches mildly relieved with ibuprofen.

Hemorrhagic Stroke Case Study For Nurses

Donna J. Bowles

Hemorrhagic Stroke Case Study For Nurses:

Clinical Reasoning Cases in Nursing - E-Book Mariann M. Harding, Julie S. Snyder, 2023-04-13 Selected for Doody's Core Titles 2024 with Essential Purchase designation in Perioperative Learn to make sound clinical nursing judgments with the concept based case study approach in Harding Snyder's Clinical Reasoning Cases in Nursing 8th Edition Awarded second place in the 2019 AJN Book of the Year Awards in the Medical Surgical category this time tested case study resource is highly regarded for its clinically relevant and thought provoking cases Approximately 150 true to life case studies cover all four clinical practice areas medical surgical pediatric OB maternity and psychiatric mental health nursing all organized to facilitate a conceptual approach to teaching and learning Each case covers a common patient problem drawn from actual clinical experiences and written by nurses who are clinical experts and includes a strong focus on interprofessional collaboration competencies Cases include integrated content on pharmacology nutrition and diagnostic laboratory tests to encourage you to think critically about all aspects of patient care The 8th edition has been updated throughout to reflect the most current standards of clinical practice including readiness for practice in the COVID 19 era Also new to this edition concepts and terminology related to the Next Generation NCLEX Exam NGN are introduced in the Preface and integrated throughout to help you prepare for the new exam Approximately 150 case studies draw from actual clinical experiences in medical surgical pediatric OB maternity and psychiatric mental health clinical areas to help you learn to think clinically prioritize and deliver proactive nursing care UNIQUE Concept based organization mirrors the growing popularity of concept based curricula and conceptual approaches to teaching and learning in nursing education Clinical judgment approach helps you learn to identify changes anticipate possible complications and initiate therapeutic interventions Progressive case complexity builds on previous learning to help you gradually develop clinical judgment skills Strong QSEN safety emphasis is highlighted with an icon to communicate caution or safety Icons identify questions that resemble new NCLEX RN item types Strong emphasis on sepsis and antibiotic resistance addresses the growing problem of sepsis a recent Joint Commission core measure and antibiotic resistance where appropriate

Gerontology Nursing Case Studies, Second Edition Donna J. Bowles, 2015-04-08 Praise for the first edition This is an excellent teaching guide and resource manual for instructors gerontological nursing students and practicing nurses and social workers who wish to learn more about geriatric concerns and care It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers As a home care nurse working mainly with the geriatric community I found the resources helpful in my practice As an instructor I found the book to be a very useful guide for teaching geriatrics Score 90 4 Stars Doody's Medical Reviews This is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice The Gerontologist The case narrative approach of this book promotes active learning that is more

meaningful to students and practicing nurses and more likely to increase the transfer of evidence into practice. An excellent resource for faculty staff educators to facilitate critical learning skills. Liz Capezuti PhD RN FAAN, Dr John W Rowe Professor in Successful Aging Co Director Hartford Institute for Geriatric Nursing New York University College of Nursing. Vivid case examples help guide nurses in developing appropriate interventions that include complementary and alternative health therapies and provide a basis for evaluating outcomes. Exercises interspersed throughout each case study include numerous open ended and multiple choice questions to facilitate learning and critical thinking. The text is unique in that some of the presented cases focus on psychosocial issues such as gambling addiction hoarding behavior emergency preparedness and long distance caregiving. Cases also depict geriatric clients who are living healthy productive lives to counter myths and negative attitudes about older adults. Scenarios demonstrating ethical dilemmas prepare students to appropriately respond to gray area situations. The text is geared for AACN and NLN accreditation and is organized according to the needs of actual clinical settings. With cases that take place in the home and community or within primary acute and long term care facilities this book will be useful for courses specific to gerontology nursing or across any nursing curriculum. New to the Second Edition: A completely new section of Aging Issues Affecting the Family. New cases addressing health care disparities aging in place and prevention of catheter associated urinary tract infection. Additional contemporary case studies. The addition of Quality for Safety in Nursing Education QSEN initiatives. A greater focus on prioritization and delegation of client's needs infused throughout exercises.

Unfolding Health Assessment Case Studies for the Student Nurse, Second Edition Kristi Maynard, Andrea Adimando, 2024-04-10. This is an extraordinary and contemporary learning resource for all nursing students and faculty. Jeffery Ramirez PhD PMHNP BC CNE FNAP FAANP FAAN Director of Graduate Nursing Programs and Professor Gonzaga University School of Health Sciences. The ease of reading the 16 chapters cannot be overemphasized. This notable book will amplify essential knowing for the newest to enter our profession. Quite simply this little gem delivers. Linda Honan PhD CNS BC FAAN ANEF Professor Emerita Yale University School of Nursing. Critical thinking can be the difference between keeping patients safe and putting them in harm's way. But as a student nurse you may find that mastering these skills is challenging and you may lack confidence in assessing a patient's health. Case studies are a common beneficial learning approach. Traditionally they present information upfront with the patient's status predetermined. But that isn't realistic as a patient's health can often take an unexpected turn. Unfolding case studies provide new information over time teaching you to think critically and apply what you've learned in nursing school to real life situations you'll face on the job. Authors Kristi Maynard and Andrea Adimando created *Unfolding Health Assessment Case Studies for the Student Nurse* for pre licensure students who need to review what they've learned earlier and practicing nurses who can apply these concepts to more complex scenarios. This book will enhance students knowledge and skills in basic health assessment. Increase readers comfort level in analyzing patient scenarios. Provide opportunities to practice and apply what students learned in health

assessment courses Develop confidence in answering NCLEX questions TABLE OF CONTENTS Chapter 1 Introduction to the Unfolding Case Study Chapter 2 Introduction to the Nursing Process Chapter 3 Answering NCLEX Style Questions Chapter 4 An Introduction to Approaching the Patient Interview Chapter 5 Vital Sign Assessment Chapter 6 Assessing Mental Status Chapter 7 Assessment Considerations for the Geriatric Patient Chapter 8 Assessment Considerations for the Pediatric Patient Chapter 9 Neurological Anomalies Chapter 10 Cardiovascular and Vascular Anomalies Chapter 11 Respiratory Anomalies Chapter 12 Gastroenterological Anomalies Chapter 13 Genitourinary and Sexual Health Chapter 14 Dermatological Anomalies Chapter 15 Head and Neck Anomalies Chapter 16 Assessment of the Transgender Patient Appendix A Practice Test Appendix B NextGen Questions

Gerontology Nursing Case Studies Donna J. Bowles, 2011-02-24 Designated a Doody's Core Title This is an excellent teaching guide and resource manual for instructors gerontological nursing students and practicing nurses and social workers who wish to learn more about geriatric concerns and care It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers As a home care nurse working mainly with the geriatric community I found the resources helpful in my practice As an instructor I found the book to be a very useful guide for teaching geriatrics Score 90 4 Stars Doody's Medical Reviews Donna Bowles's Gerontology Nursing Case Studies is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice The Gerontologist The case narrative approach of this book promotes active learning that is more meaningful to students and practicing nurses and more likely to increase the transfer of evidence into practice An excellent resource for faculty staff educators to facilitate critical learning skills Liz Capezuti PhD RN FAAN Dr John W Rowe Professor in Successful Aging Co Director Hartford Institute for Geriatric Nursing New York University College of Nursing This is a terrific text that provides nurses and other health care providers with good basic information about clinical problems and challenges we face in providing care to older adults It should be considered required reading in all undergraduate programs From the foreword by Barbara Resnick PhD CRNP FAAN FAANP Professor University of Maryland School of Nursing Sonya Ziporkin Gershowitz Chair in Gerontology At the heart of this unique volume are 100 case studies of older adults that address nearly every issue physical mental and psychosocial that may confront health care providers who work with the aging population These case studies culled from contributors with several centuries worth of combined nursing expertise are designed to guide nursing students in the development of interventions that encompass both complementary and alternative health strategies Exercises interspersed throughout each case study are designed to foster critical thinking and decision making skills These case narratives provide a holistic approach to problem solving in regard to political ethical and legal issues loss and end of life issues elder abuse depression addiction and suicide self esteem and family relationships sexuality age related health issues cognitive impairment cultural diversity as it relates to aging pain management and sleep

disturbances The volume also addresses such contemporary psychosocial issues as gambling addiction hoarding behavior emergency preparedness the aging driver and long distance caregiving Key Features Provides 100 evidence based case studies Cultivates development of critical thinking and decision making skills Features realistic contemporary scenarios Designed for use across the gerontology nursing curriculum Geared for AACN and NLN Accreditation Organized according to the needs of actual clinical settings *Updates and Advances in Cardiovascular Nursing, An Issue of Nursing Clinics, E-Book* Leslie Davis,2023-08-07 In this issue guest editors bring their considerable expertise to this important topic Contains 15 practice oriented topics including heart failure priorities for transition to home stroke update focus on hospital management new pharmacologic treatment for patients with cardiovascular disease mechanical assist devices in the cardiac intensive care unit caring for sexual and gender minorities with cardiovascular disease and more Provides in depth clinical reviews of advances in cardiovascular nursing offering actionable insights for clinical practice Presents the latest information on this timely focused topic under the leadership of experienced editors in the field Authors synthesize and distill the latest research and practice guidelines to create clinically significant topic based reviews *Case Studies in LPN/LVN Nursing E-Book* Janis McMillan,2024-01-18 2025 Textbook and Academic Authors Association TAA Most Promising New Textbook Award Winner Gain valuable experience applying your knowledge and critical thinking skills to real world scenarios Case Studies in LPN LVN Nursing features 50 case studies that cover all clinical areas of practice fundamental skills medical surgical adult health nursing pediatric maternity mental health geriatric nursing and leadership management Patient scenarios help you learn how to apply nursing knowledge to nursing practice by promoting the development of critical thinking and clinical reasoning skills Cases integrate content on assessment findings diagnostic laboratory tests pharmacology and nutrition to encourage you to think critically about all aspects of patient care including the physical and psychosocial needs of the patient communication collaboration with the health care team teaching wellness and health promotion and integration of cultural competence Cases unfold as care is provided and a variety of multiple choice select all that apply prioritization and short answer questions challenge you to formulate and select relevant and or potential decisions The case studies are separated by clinical area allowing you to use this worktext throughout your nursing program Questions for the Next Generation NCLEX NGN prepare you for the biggest change to the NCLEX PN test plan to date Fifty case studies cover patient scenarios that span the entire LPN LVN curriculum Unfolding case progressions help you learn to identify changes anticipate outcomes and prioritize care Emphasis on interprofessional collaboration builds your communication and delegation skills A variety of question formats reinforce critical thinking and help you prepare for the NCLEX PN exam Documentation questions challenge you to identify critical information to chart **Case Studies in Gerontological Nursing for the Advanced Practice Nurse** Meredith Wallace Kazer,Leslie Neal-Boylan,2012-02-08 As the fastest growing population sector worldwide older adults are seen in almost every care setting in which clinicians practice

Developed as a resource for advanced practice nurses in any setting Case Studies in Gerontological Nursing for the Advanced Practice Nurse presents readers with a range of both typical and atypical cases from real clinical scenarios The book is organized into six units covering cases related to ageism common health challenges health promotion environments of care cognitive and psychological issues and issues relating to aging and independence Each case follows a similar format including the patient's presentation critical thinking questions and a thorough discussion of the case resolution through which students and clinicians can enhance their clinical reasoning skills Designed to promote geriatric clinical education through self assessment or classroom use Case Studies in Gerontological Nursing for the Advanced Practice Nurse is a key resource for all those dedicated to improving care for older adults **Neurocritical Care Nursing Management of Stroke, An Issue of Critical Care Nursing Clinics of North America, E-Book** Wandria Dallas,2023-02-12 In this issue of Critical Care Nursing Clinics guest editor Wandria Dallas brings her considerable expertise to the topic of Neurocritical Care Nursing Management of Stroke Although the treatment of acute stroke has been improved considerably the majority of patients are left disabled with a considerable impact on functional independence and quality of life and new strategies are needed in order to improve neurorehabilitation This issue provides important updates on care of the stroke patient aimed at providing critical care nurses with state of the art interventions Contains 10 practice oriented topics including stroke risk related to COVID 19 airway management of stroke stroke disability predictors management of postoperative decompressive craniectomy invasive neuromonitoring and more Provides in depth clinical reviews on neurocritical care nursing management of stroke offering actionable insights for clinical practice Presents the latest information on this timely focused topic under the leadership of experienced editors in the field Authors synthesize and distill the latest research and practice guidelines to create clinically significant topic based reviews **Nursing Care of the Hospitalized Older Patient** Terry Mahan Buttar, Kate A. Barba,2012-09-10 Nursing Care for the Hospitalized Older Patient is a comprehensive quick reference resource for registered and advanced practice nurses working with older patients in a hospital setting Organized in user friendly format the book provides vital information on all aspects of hospital care and the full range of health issues encountered by elderly patients The book is organized into four major sections The first section provides an overview of the aging patient including demographics normal aging changes and the general impact of hospitalization The second section covers proper health assessment providing guidance on history taking and evaluating laboratory values The third section is the largest part of the book and is made up of short similarly structured chapters dedicated to individual clinical issues ranging from burns to depression These chapters are organized by body system to maximize ease of use The book concludes with a section on special considerations that cross common clinical areas such as palliative care pain management fall prevention and discharge planning **A Nurse's Survival Guide to Acute Medical Emergencies Updated Edition** Richard N. Harrison,2018-11-06 Are you a nurse a physician's associate or a medical student in an acute or emergency unit

Hemorrhagic Stroke Case Study For Nurses Introduction

Hemorrhagic Stroke Case Study For Nurses Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Hemorrhagic Stroke Case Study For Nurses Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Hemorrhagic Stroke Case Study For Nurses : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Hemorrhagic Stroke Case Study For Nurses : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Hemorrhagic Stroke Case Study For Nurses Offers a diverse range of free eBooks across various genres. Hemorrhagic Stroke Case Study For Nurses Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Hemorrhagic Stroke Case Study For Nurses Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Hemorrhagic Stroke Case Study For Nurses, especially related to Hemorrhagic Stroke Case Study For Nurses, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Hemorrhagic Stroke Case Study For Nurses, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Hemorrhagic Stroke Case Study For Nurses books or magazines might include. Look for these in online stores or libraries. Remember that while Hemorrhagic Stroke Case Study For Nurses, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Hemorrhagic Stroke Case Study For Nurses eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Hemorrhagic Stroke Case Study For Nurses full book , it can give you a taste of the authors

writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Hemorrhagic Stroke Case Study For Nurses eBooks, including some popular titles.

FAQs About Hemorrhagic Stroke Case Study For Nurses Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Hemorrhagic Stroke Case Study For Nurses is one of the best book in our library for free trial. We provide copy of Hemorrhagic Stroke Case Study For Nurses in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Hemorrhagic Stroke Case Study For Nurses. Where to download Hemorrhagic Stroke Case Study For Nurses online for free? Are you looking for Hemorrhagic Stroke Case Study For Nurses PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase.
