## **Henri Matisse Rooms With A View:**

*Henri Matisse* Shirley Neilsen Blum, 2010-11-16 The colorful painterly uplifting and often joyous works of Henri Matisse are critical in the history of modern art Throughout his many years as a painter the celebrated artist kept returning to one particular subject the windowed interior *Henri Matisse Rooms with a View* explores in depth for the first time the full significance of the window in Matisse's thinking about interior and exterior space Matisse studied and rearranged his rooms constantly when he lived in hotels and small apartments his living quarters usually doubled as his studio In a continuous engagement with these spaces he produced not only singular masterpieces but also developed a theme as rich as the traditional landscape or portrait In each new phase of his art and with every change of residence Matisse reinvented the theme of the window Distinguished art historian Shirley Neilsen Blum analyzes more than fifty paintings starting with the early *Studio Under the Eaves* 1903 a traditional darkened room with a small brilliant window through *Harmony in Red* 1908 with its startling use of color pattern and line to the more abstract work created during World War I such as *The Piano Lesson* 1916 After the war Matisse moved to Nice Tall French windows that open upon a balcony and overlook the Mediterranean define many of the paintings from these years By the late 1940s the window is so bound to the structure of the flattened space that it is barely differentiated from a painting or piece of tapestry hanging on the wall The luxuriously illustrated volume culminates in one of Matisse's greatest and most original works the *Chapel of the Rosary* 1947-51 at Vence where instead of imitating light and color in paint he manipulated actual light through the colored glass of the windows This insightful volume reveals not only the key role of the windowed interior in Matisse's oeuvre but also presents an overview of the artist's remarkable and varied career and shows how his work paved the way for some of the most radical abstract painting of the twentieth century

**Henri Matisse** Shirley Neilsen Blum, 2010 This book brings together for the first time the rich collection of Matisse's paintings of interiors and windows The distinguished art historian Shirley Blum analyses more than fifty works from the early painting *Studio Under the Eaves* 1901-02 to the great stained glass window at the *Chapel of the Rosary* in Vence 1947-51 With perceptive text and scores of luscious illustrations *Rooms with a View* reveals the key role of the window in Matisse's oeuvre

**"Interior Portraiture and Masculine Identity in France, 1789-1914"** Heather Belnap Jensen, 2017-07-05 Focusing specifically on portraiture as a genre this volume challenges scholarly assumptions that regard interior spaces as uniquely feminine Contributors analyze portraits of men in domestic and studio spaces in France during the long nineteenth century the preponderance of such portraits alone supports the book's premise that the alignment of men with public life is oversimplified and more myth than reality The volume offers analysis of works by a mix of artists from familiar names such as David Delacroix Courbet Manet Rodin and Matisse to less well known image makers including Dominique Doncre Constance Mayer Anders Zorn and Lucien

Etienne Melingue The essays cover a range of media from paintings and prints to photographs and sculpture that allows exploration of the relation between masculinity and interiority across the visual culture of the period The home and other interior spaces emerge from these studies as rich and complex locations for both masculine self expression and artistic creativity Interior Portraiture and Masculine Identity in France 1789 1914 provides a much needed rethinking of modern masculinity in this period

**Matisse** Rebecca A. Rabinow, Dorthe Aagesen, Metropolitan Museum of Art (New York, N.Y.), 2012 Throughout his long career Henri Matisse 1869 1954 continually expanded the boundaries of his art By repeating images in pairs trios and series he conducted an ongoing dialogue with his earlier works in order to as he put it push further and deeper into true painting In this fresh approach to a much studied artist prominent scholars from the United States and Europe examine more than sixty works in concise chapters that focus on this aspect of Matisse s working process From early pairs such as Young Sailor I and II 1906 and Le Lexe I and II 1907 8 through a series of late studio scenes from Vence 1946 48 Matisse is shown revisiting a given theme with the aim of devising innovative often radical solutions to such problems as how to portray light handle paint select colors and manipulate perspective New technical studies of the early paired works and photographs documenting the evolution of his later paintings help to elucidate Matisse s complex evolution In numerous excerpts from letters and interviews he is revealed as an artist who regularly questioned himself and his methods a man of powerful intellect who regarded each new painting as an adventure A significant addition to art historical literature Matisse In Search of True Painting is a revelatory study of a seminal figure in 20th century modernism Page 4 of cover

*Domestic Interiors* Georgina Downey, 2013-08-15 In the act of enclosing space and making rooms we make and define our aspirations and identities Taking a room by room approach this fascinating volume explores how representations of domestic space have embodied changing spatial configurations and values and considers how we see modern individuals in the process of making themselves at home Scholars from the US UK and Australasia re visit and re think interiors by Bonnard Matisse Degas and Vuillard as well as the great spaces of early modernity the drawing room in Rossetti s house hallways in Hampstead Garden Suburb the Paris attic of the Brothers Goncourt Sch tte Lihotzky s Frankfurt Kitchen to explore how interior making has changed from the Victorian to the modern period From the smallest room the bathroom to the spacious verandas of Singapore Deco *Domestic Interiors* focuses on modern rooms imaged and imagined it builds a distinct body of knowledge around the interior interiority representation and modernity and creates a rich resource for students and scholars in art architecture and design history

Last Light Richard Lacayo, 2022-10-11 One of the nation s top art critics shows how six great artists made old age a time of triumph by producing some of the greatest work of their long careers and in some cases changing the course of art history Ordinarily we think of young artists as the bomb throwers Monet and Renoir were still in their twenties when they embarked on what would soon be called Impressionism as were Picasso and Braque when they ventured into Cubism But your sixties and the decades that follow can be no less liberating if they too bring the confidence to

attempt new things Young artists may experiment because they have nothing to lose older ones because they have nothing to fear With their legacies secure they re free to reinvent themselves sometimes with revolutionary results Titian s late style offered a way for pigment itself not just the things it depicted to express feelings on the canvas foreshadowing Rubens Frans Hals 19th century Impressionists and 20th century Expressionists Goya s late work enlarged the psychological territory that artists could enter Monet s late waterlily paintings were eventually recognized as prophetic for the centerless diaphanous space developed after World War II by abstract expressionists like Jackson Pollock and Phillip Guston In his seventies Matisse began to produce some of the most joyful art of the 20th century especially his famous cutouts that brought an ancient craft into the realm of High Modernism Hopper the ultimate realist used old age on occasion to depart into the surreal And Nevelson the patron saint of late bloomers pioneered a new kind of sculpture wall sized wooden assemblages made from odds and ends she scavenged from the streets of Manhattan Though these six artists differed in many respects they shared one thing a determination to go on creating driven not by the bounding energies of youth but by the ticking clock that would inspire them to produce some of their greatest masterpieces

**The New Art of the Fifteenth Century: Faith and Art in Florence and The Netherlands** Shirley Neilsen Blum,2013-09-03 A fresh look at the early Renaissance considering Florentine and Netherlandish art as a single phenomenon at once deeply spiritual and entirely new Adam and Eve are driven from the Garden of Eden into a rocky landscape their naked bodies lit by a cold sun their gestures and expressions a study in shame and anguish A serious man well attired kneels in prayer before the Virgin and Child close enough to touch them almost his furrowed brow setting off the saintly perfection of their features In fifteenth century Florence and Flanders painters were using an arsenal of new techniques including perspective anatomy and the accurate treatment of light and shade to present traditional religious subjects with an unprecedented immediacy and emotional power Their art was the product of a shared Christian culture and their patrons included not only nobles and churchmen but also the middle classes of these thriving commercial centers Shirley Neilsen Blum offers a new synthesis of this remarkable period in Western art between the refinements of the Gothic and the classicism of the High Renaissance when the mystical was made to seem real In the first part of her text Blum traces the emergence of a new naturalism in the sculpture of Claus Sluter and Donatello and then in the painting of Van Eyck and Masaccio In the second part she compares scenes from the Infancy and Passion of Christ as rendered by artists from North and South Exploring both the images themselves and the theological concepts that lie behind them she re creates as far as possible the experience of the contemporary fifteenth century viewer Abundantly illustrated with color plates of masterworks by Fra Angelico Botticelli Rogier van der Weyden and others this thought provoking volume will appeal equally to general readers and students of art history
