Revision Decisions Jeff Anderson, Deborah Dean, 2023-10-10 Revision is often a confusing and difficult process for students but it s also the most important part of the writing process If students leave our classrooms not knowing how to

move a piece of writing forward we've failed them. Revision Decisions Talking Through Sentences and Beyond will help teachers develop the skills students need in an ever-evolving writing language and reading world. Jeff Anderson and Deborah Dean have written a book that engages writers in the tinkering, playing, and thinking that are essential to clarify and elevate writing. Focusing on sentences, the authors use mentor texts to show the myriad possibilities that exist for revision. Essential to their process is the concept of classroom talk. Readers will be shown how revision lessons can be discussed in a generative way and how each student can benefit from talking through the revision process as a group. Revision Decisions focuses on developing both the writing and the writer. The easy-to-follow lessons make clear and accessible the rigorous thinking and the challenging process of making writing work. Narratives set up lessons, templates, and details about how to move students toward independence. Round out this essential book. Additionally, the authors weave the language reading and writing goals of the Common Core and other standards into an integrated and connected practice. The noted language arts teacher James Britton once said that good writing floats on a sea of talk. Revision Decisions supports those genuine conversations we naturally have as readers and writers, leading the way to the essential goal of making meaning.

Reading With Purpose
Erika Thulin Dawes, Katie Egan Cunningham, Grace Enriquez, Mary Ann Cappiello, 2023. From the authors of the popular blog and resource for teachers The Classroom Bookshelf, this book offers a framework and teaching ideas for using recently released children's and young adult literature to build a culture of inquiry and engagement from a text-first approach. Reading With Purpose is designed to help K-8 teachers tap into their inner reader to make intentional text selections for their students and to create joyful and purpose-driven literacy learning experiences. The heart of the book is organized according to four purposes for selecting and using literature: care for ourselves and one another; connect with the past to understand the present; closely observe the world around us; and cultivate critical consciousness. Each chapter includes classroom stories, accessible research, reasons for why this matters now, and criteria for selecting for this purpose. A final section provides teaching invitations that pair with suggested books but can also be used with any high-quality book teachers may already have in their classrooms.

Book Features: Builds on important work from thought leaders urging teachers to create their own reading identities to help them do so for their students. Describes a simple, sustainable framework teachers and teacher educators can use immediately to make more purposeful text selections. Provides myriad teaching ideas, narrative anecdotes from diverse classrooms, student work samples, and reflective questions. Offers a list of recommended, recently published children's and young adult literature.
