Mourning Alan D. Wolfelt, 2015-07-01 When it comes to healing after the death of someone loved our culture has it all wrong We're told to be strong when what we really need is to be vulnerable We're told to think positive when what we really need is to wallow in the pain And we're told to seek closure when what we really need is to welcome our natural and necessary grief Dr Wolfelt's new book seeks to dispel these misconceptions that we hold on to so tightly and help people everywhere mourn well so they can live fuller lives The Paradoxes of Mourning discusses three truths that grieving people used to know and respect but in the last century seem to have forgotten 1 You must make friends with the darkness before you can enter the light 2 You must go backward before you can go forward 3 You must say hello before you can say goodbye In the tradition of the Four Agreements and the Seven Habits this compassionate and inspiring guidebook by North America's most beloved grief counselor gives you the three keys that unlock the door to hope and healing **The Understanding Your Suicide**

Wolfelt, 2012-06-01 Renowned author and educator Alan Wolfelt

redefines the role of the grief counselor in this guide for caregivers to grieving children Providing a viable alternative to the limitations of the medical establishment's model for companioning the bereaved Wolfelt encourages counselors and other caregivers to aspire to a more compassionate philosophy in which the child is the expert of his or her grief not the counselor or caregiver The approach outlined in the book argues against treating grief as an illness to be diagnosed and treated but

rather for acknowledging it as an event that forever changes a child's worldview. By promoting careful listening and observation, this guide shows caregivers, family members, teachers, and others how to support grieving children and help them grow into healthy adults.

You're Not Crazy—You're Grieving: Dr. Alan Wolfelt, Alan D. Wolfelt, 2023-04-01. After a significant loss, it's common to feel like we're going crazy. The sudden absence of someone we love is not only devastating, it's disorienting. They were here one moment and now they're gone forever. How can that be? The first year or two of grief is often unbelievably painful and confusing. We're in shock, often for weeks or months. Time seems out of whack. We feel powerless, helpless, and ineffective. We can't think straight; we can't get anything done. Our moods swing wildly, and we say and do crazy things. We cry, and we cling to objects that belonged to the person who died. We have bizarre dreams. We think we hear, see, or experience communications from the person who died. We wonder if we can or should go on. And through it all, our minds and hearts return over and over again to the impossible reality that can never again talk to or touch a person who lived and breathed and gave our lives so much meaning. There is nothing more challenging than the early months and years of a major life loss. But this compassionate book by one of the world's most beloved grief counselors will help you endure. Dr. Wolfelt presents the six key steps to coping with a death. You may feel like you're going crazy, but you're not. You're grieving. Your thoughts, feelings, and reactions are normal. And you can and will survive. What's more, your days in deep grief will be a little easier if you turn to these six steps.

Counseling Skills for Companioning the Mourner: Alan D. Wolfelt, 2016-02-01. An in-depth guide to the counseling process and establishing a trusting relationship with clients from a bestselling author and grieving expert. Helping people in grief means being an empathetic companion—someone who allows griever to be experts of their own experiences, who bears witness without judging, who gently encourages the expression of thoughts and feelings. But even if you approach the work with this understanding, how you are when you spend time with the griever also has a tremendous influence on your capacity to help. How do you develop a relationship with the griever? How do you show empathy, respect, warmth, and genuineness? Could you improve your listening, paraphrasing, clarifying, perception checking, informing, and other essential helping skills? Whether you are a professional counselor or a lay helper, whether you have years of experience or are new to the work, this guide based on Dr. Wolfelt's companioning philosophy will help you be the most effective grief companion you can be.
