Play Therapy with Traumatized Children Paris Goodyear-Brown, 2009-10-12

INTRODUCING A PRACTICAL MODEL OF PLAY THERAPY FOR TRAUMATIZED CHILDREN Some of the most rewarding work a therapist can do is help a child recover from a traumatic event But where to begin A growing body of play therapy literature offers many specific techniques and a variety of theoretical models however many therapists are still searching for a comprehensive model of treatment that incorporates solid theoretical constructs with effective play therapy interventions Clinicians have long recognized that trauma therapy is not just a matter of techniques but a journey with a beginning middle and end In a pioneering contribution to the field *Play Therapy with Traumatized Children A Prescriptive Approach* the author codifies the process in her model Flexibly Sequential Play Therapy FSPT Integrating non directive and directive approaches this components based model allows for the uniqueness of each child to be valued while providing a safe systematic journey towards trauma resolution The FSPT model demystifies play based trauma treatment by outlining the scope and sequence of posttraumatic play therapy and providing detailed guidance for clinicians at each step of the process Dramatically demonstrating the process of healing in case histories drawn from fifteen years of clinical practice with traumatized children *Play Therapy with Traumatized Children* addresses Creating a safe place for trauma processing Augmenting the child s adaptive coping strategies and soothing his or her physiology Correcting the child s cognitive distortions Ensuring that caregivers are facilitative partners in treatment Inviting gradual exposure to trauma content through play Creating developmentally sensitive trauma narratives Using termination to make positive meaning of the post trauma self

Living and Surviving in Harm's Way Sharon Morgillo Freeman, Bret A Moore, Arthur Freeman, 2009-06-03

In *Living and Surviving*

in Harm's Way experts investigate the psychological impact of how warriors live and survive in combat duty They address the combat preparation of servicemen and women their support systems and their interpersonal and intrapersonal experiences The text maintains a focus on cognitive behavioral interventions for treating various combat related disorders and addresses psychological health and adjustment after leaving the battlefield The text is logically organized for easy reading and reference and covers often overlooked topics such as preparation and training of service personnel women in combat and the indirect effects of combat stress on family This book is written by clinicians who have in some ways experienced what they write about and resonates with mental health professionals servicemen and women and their families Any clinician hoping to treat a serviceman or woman effectively cannot afford to overlook this book

Psychological Interventions in Times of Crisis Laura Barbanel, Robert J.
