Truckers North Truckers South Leslie Purdon, 2007-09-28 In the late 1940s Shay leaves school as soon as he can to become a trailer boy on a Gardner truck that is noisy, cold and limited in speed. The driver Fred is one of the old school, a transport man through and through who knows the best cafes and pubs and all the tricks of the trade. Shay soon comes to love this life on the road despite long hours and frequent absences from his home in Kent. In those days lorries were less able to cope with bad weather. *Truckers North* includes a vivid account of the terrible winter of 1947 when twenty miles an hour was an achievement and the powerful vehicles were dangerous to handle. Shay encountered some lively characters, the drivers who worked, played and joked hard, the kindly landladies who provide a home from home. Rosy who awoke the man in the boy. Shay progressed in his career moving on to become a driver himself and finally the proud owner of his own HGV.

He deals in particular with developments of the classic period from the 1950s to the 1990s. The book is arranged alphabetically by manufacturer from Allis Chalmers to Zetor, one hundred marques in total. These are all machines to be

found on British farms irrespective of their country of manufacture Brian runs concisely through the histories of the companies and their major models illustrated with a wealth of photographs and extracts from sales literature He adds some special features on items such as hydraulic systems and cold starting aids He includes a glossary and full index This book replaces the author's earlier successful *Fifty Years of Farm Tractors* Many of the photographs are new and the text has been brought up to date to include developments of the early twenty first century
