Character Counts Michael Glenn Maness,2010-12 *Shooting Down the Stealth Fighter* Mihajlo S. Mijajlovic,Djordje S. Anicic,2022-01-28 A look at the takedown of the presumably invulnerable aircraft during the Kosovo War featuring perspectives on both sides plus technical details With its futuristic and unmistakable design the Lockheed F 117A Nighthawk the so called Stealth Fighter was the wonder of the age Virtually undetectable by radar this ground attack aircraft could slip unseen through enemy defenses to deliver its deadly payload on unsuspecting targets Its effectiveness had been well demonstrated during the Gulf War of 1991 during which the F 117A achieved almost legendary status But at 20 42 hours on 27 March 1999 the military and aviation worlds were stunned when the impossible happened a virtually obsolete Soviet built surface to air missile system which had first been developed more than thirty years earlier detected and shot down an F 117A callsign Vega 31 This incident took place during the NATO bombing of Yugoslavia during the Kosovo War It was and remains at least officially the only time that a stealth aircraft was detected and shot down by a ground based missile system In this book the authors both of whom served in the Kosovo War take the reader through every moment of that astounding event from both the perspective of Lieutenant Colonel Dani s 3rd Battalion 250th Air Defense Missile Brigade a Yugoslav Army unit and that of the pilot of the F 117A Lieutenant Colonel Darrell Patrick Zelko who ejected and survived the loss of his aircraft The reader is placed in the cabin of the missile fire control center and alongside Dale Zelko in the cockpit of his stealth fighter as each second dramatically unfolds Stealth characteristics are now regarded as a standard part of modern military aircraft design but with each generation of aircraft becoming increasingly almost cripplingly expensive to produce and operate compared with the simpler surface to air defense systems the outcome of the battle between missile and stealth hangs in the balance That this is the case might be seen in the strange fact that it is claimed that two other F 117As did not return to the U S at the end of the Kosovo War though mysteriously their fate has never been revealed Were they too victims

of Yugoslav missiles Though intended for the general reader Shooting Down the Stealth Fighter covers the technical details of the weapons involved and their deployment and the authors should know as one of them Djordje Anicic was a member of the Yugoslav team which brought down Zelko s aircraft *I'M Tim Maude, and I'M a Soldier* Stephen E. Bower,2015-02-10 Lt Gen Tim Maude shares the distinction of being the highest ranking American soldier to lose his life in military action But unlike Lesley J McNair and Simon B Buckner Jr both lieutenant generals who died during World War II the battle he died in was not one he expected On Sept 11 2001 terrorists commandeered an American Airlines flight out of Dulles International Airport and crashed it into the southwest wall of the Pentagon killing Maude and more than a hundred other military and civilian workers Scores of other people were injured when the airliner ripped through the building at 530 miles per hour At the time of his death Maude served as the deputy chief of staff for personnel the Armys chief executor of personnel policy and manager of the various programs affecting the strength and moral well being of Americas land forces As one of only five members of the Armys Adjutant Generals Corps to rise to the rank of lieutenant general his story is one of triumph and celebration and an abiding commitment to family country and service
