For a period of eighty five years the M Street Dunbar High School was an academically elite all black public high school in Washington DC As far back as 1899 its students came in first in citywide tests given in both black and white schools Over this eighty five year span approximately 80 percent of M Street Dunbar's graduates went on to college even though most Americans white or black did not attend college at all Faculty and students were mutually respectful to one another and disruptions in the classroom were not tolerated Yet in this era of best practices this public high school has received virtually no attention in the literature or in policy considerations for inner city education The Dunbar High School today with its new building and athletic facilities is just another ghetto school with abysmal standards and low test score results despite the District of Columbia's record of having some of the country's highest levels of money spent per pupil The purpose of this study is to explore the history of a high school that was successful in teaching black children from low income families and to determine if the learning model employed there could be successful in a modern inner city public education environment

Digital Robbery Shun-Yung Kevin Wang, Ming-Li Hsieh, 2021-04-20 This book begins with a broader discussion of cybercrime and attacks targeting ATMs and then focuses on a specific type of cybercrime named ATM Hacking. It discusses ATM Hacking from a more full scope of aspects including technology, modus operandi, law enforcement, socio-economic and geopolitical context and theory development. After unpacking a classic case of ATM Hacking and its modus operandi implications for cybersecurity and prevention, intra and inter agency collaboration and theory development are presented. This book also demonstrates the analysis of extensive qualitative data collected from a high profile case in which a European criminal group hacked into a London voice mail server belonging to a Taiwanese financial institution, First Commercial Bank. Then it programmed dozens of ATMs to spit out millions of dollars of cash. The successful crackdown on this type of crime is rare if not unique while the number of similar crimes has increased enormously in recent years and the trend seems to continue unabatingly. Further the implications go beyond a country or a continent. Intra and inter agency collaboration among players of law enforcement is essential to the case especially in the police context of turf jealousies. The authors seek to document the ways in which agencies collaborate as well as the perceived benefits and challenges of cooperation. Whether the broader political and contextual climates in which these agencies operate limit the extent to which they can cooperate. This book is useful as a reference for researchers and professionals working in the area of cybercrime and cybersecurity. University professors can also use this book as a case study for senior seminars or graduate courses.

With Ballots and Bullets Nathan P. Kalmoe, 2020-07-30 What happens when partisanship is pushed to its extreme? In With Ballots and Bullets Nathan P. Kalmoe combines historical and political science approaches to provide new insight into the American Civil War and deepen contemporary understandings of mass partisanship. The book reveals the fundamental role of partisanship in shaping the dynamics and legacies of the Civil War drawing on an original analysis of newspapers and geo-coded data on voting returns and soldier enlistments as well as retrospective surveys. Kalmoe shows that partisan identities motivated mass violence by ordinary citizens not extremists when activated by leaders and legitimated by the state. Similar processes also enabled partisans to rationalize staggering war casualties into predetermined vote choices shaping durable political habits and memory after the war's end. Findings explain much about nineteenth century American politics but the book also yields lessons for today revealing the latent capacity of political leaders to mobilize violence.
