Clark, Aaron M.

Hohl, Catherine H. Picard, Elizabeth Thomas, 2014-09-03 Many people working toward sustainability recognize the important role of conservation but are inadequately prepared to deal with the large spatial temporal and complexity scales that are involved in large scale conservation efforts Problems in large scale conservation require navigating an intermixture of geophysical biological and political dimensions Coming to grips with these many natural and human forces and factors at large scales much less the myriad details in any single case is challenging in the extreme and becomes more critical with each day that passes Large scale conservation poses many complex challenges that single disciplines approaches or methods cannot fully address alone Interdisciplinarity can significantly strengthen large scale conservation efforts Throughout Large Scale Conservation in the Common Interest the editors and authors argue that a more holistic and genuinely interdisciplinary approach is required to solve the complex and growing challenges associated with large scale conservation The chapters within offer such an approach and define key terms bring challenges to light and employ case studies to offer concrete practical and strategic recommendations to help those who are engaged in the interactive tasks of promoting sustainability and human dignity This book is intended for a broad audience including students and professors new to the field of large scale conservation experienced field based practitioners in science and management and decision and policy makers who set specific and strategic direction for large landscapes Professors can use this book to introduce students to the challenges of successful large scale conservation design and implementation and to teach interdisciplinarity as a framework concept and tool Professionals will find this book offers a new way of using science management and policy to make decisions Finally this volume can be used as a guide to set up workshops seminars or projects involving diverse people and perspectives *The Other Saber-tooths* Virginia L. Naples, Larry D. Martin, John P. Babiarez, 2011-09 Richly illustrated and featuring the latest information on scimitar tooth cats of the New World *The Other Saber teeth* is an engaging and comprehensive collection of information about these fascinating felines that will appeal to paleontologists and anyone else interested in the prehistoric world Holt Science and Technology Holt Rinehart & Winston, 2004-02 Study Guide: Environmental Science, 2013

Bowker's Law Books and Serials in Print, 1984 *Coastal Risk: Shores and Deltas in Peril* Clara Armaroli, Derek W. T. Jackson, Denise Reed, Christophe Viavattene, 2020-01-30 The interaction between land and sea is controlled by a number of processes that are in general driven by the equilibrium between environmental forcing components e g hydrodynamic waves currents surges atmospheric e g winds and terrestrial e g catchment land cover and sediment dynamics In the context of the Anthropocene epoch the equilibrium in many coastal regions is now often altered by the influence of human activities Successive human activities globally influence indirectly these forcing components helping magnify the negative impact of extreme meteorological events and sea level rise Directly human activity can also influence a number of processes at a local scale within and between the catchment the sea and the coast For example misplaced engineered infrastructure inside these naturally dynamic environments can accentuate disequilibrium destabilizing shores and deltas Development in catchments

can promote rapid runoff inducing sometimes dramatic effects on downstream urbanized areas the socio economy as well as on coastal resources and ecosystems This Research Topic aims to assemble research and review papers that focus on the dynamics of shores and deltas in peril under present conditions as well as in the future context of sea level rise climate change and adaptation strategies under various scenarios **American Scientist** ,1942 *Mechanical Engineering* ,1985
