Griswold, Henry Fuller Holtzclaw, 1988 **Financial and Business Management for the Doctor of Nursing Practice, Second Edition** KT Waxman, 2017-12-28 First Edition Awarded Second Place in 2013 AJN Book of the Year Awards The second edition of this award winning text designed specifically for the DNP course in health care economics and finance remains the only book to embed economic and financial concepts in the context of nursing practice and nursing health care systems Well organized and clearly written the second edition is updated to encompass key changes to reimbursement and health care regulations and provides revised statistics throughout It offers new information on ambulatory care cost and ratio analysis additional examples of financial statements and an updated sample business plan Enhanced teaching strategies include real life case studies challenging critical thinking questions learning games key words in each chapter and an extensive glossary New PowerPoint slides add to the text's value as a robust teaching tool Written by experienced DNP executives for DNPs the book emphasizes critical skills nurse leaders need to participate in strategic health care planning It delivers a practical approach to business finance economics and health policy that is designed to foster sound business and leadership The text clearly explicates the relationship between cost of care quality of care and ethics and examines the economic and financial implications of evidence based practice and quality Also included is a special section on finance for independent practitioners Additionally the book delivers required competencies of the AACN Essentials and the AONE New to the Second Edition Updated statistics throughout New information on ambulatory care A cost and ratio analysis Additional examples of financial statements Updated business plan Enhanced faculty support PowerPoint slides **General Chemistry** Henry F. Holtzclaw, Jr., William R. Robinson, Hered, Grace R., 1988 **Atlas of Implant Dentistry and Tooth-Preserving Surgery** Zoran Stajčić, 2017-03-29 This atlas is unique in comparing the two disciplines of dental implant surgery and tooth preserving surgery with respect to common procedures problems and failures and in providing excellent guidance on the prevention and management of complications The etiology of a wide variety of implant related and non implant related complications and failures is carefully explained Since many complications have their roots in oral and periodontal surgical maneuvers these maneuvers are themselves discussed and extensively illustrated The most frequently used tooth preservation procedures are also fully described with emphasis on correct surgical technique as a means to avoid complications The use of these procedures is constantly weighed against the effects of tooth removal and insertion of dental implants The text is complemented by the inclusion of a substantial number of helpful references While the atlas is intended primarily for dentists involved in outpatient implant dentistry and oral surgery oral and maxillofacial surgeons will also find the descriptions of innovative techniques or maneuvers to be of interest including those relating to the selection of incision and flap design and the sinus floor elevation techniques [Catalog of Copyright Entries.
