## **Homosexuality And Civilization:**

**Homosexuality and Civilization** Louis Crompton, 2003 How have major civilizations of the last two millennia treated people who were attracted to their own sex In a narrative tour de force Louis Crompton chronicles the lives and achievements of homosexual men and women alongside a darker history of persecution as he compares the Christian West with the cultures of ancient Greece and Rome Arab Spain imperial China and pre Meiji Japan Ancient Greek culture celebrated same sex love in history literature and art making high claims for its moral influence By contrast Jewish religious leaders in the sixth century B C E branded male homosexuality as a capital offense and later blamed it for the destruction of the biblical city of Sodom When these two traditions collided in Christian Rome during the late empire the tragic repercussions were felt throughout Europe and the New World Louis Crompton traces Church inspired mutilation torture and burning of sodomites in sixth century Byzantium medieval France Renaissance Italy and in Spain under the Inquisition But Protestant authorities were equally committed to the execution of homosexuals in the Netherlands Calvin's Geneva and Georgian England The root cause was religious superstition abetted by political ambition and sheer greed Yet from this cauldron of fears and desires homoerotic themes surfaced in the art of the Renaissance masters Donatello Leonardo Michelangelo Sodoma Cellini and Caravaggio often intertwined with Christian motifs Homosexuality also flourished in the court intrigues of Henry III of France Queen Christina of Sweden James I and William III of England Queen Anne and Frederick the Great Anti homosexual atrocities committed in the West contrast starkly with the more tolerant traditions of pre modern China and Japan as revealed in poetry fiction and art and in the lives of emperors shoguns Buddhist priests scholars and actors In the samurai tradition of Japan Crompton makes clear the celebration of same sex love rivaled that of ancient Greece Sweeping in scope elegantly crafted and lavishly illustrated **Homosexuality and Civilization** is a stunning exploration of a rich and terrible past

**Homosexuality and Civilization** Louis Crompton, 2006 The author explores the relationship between same sex love and civilization comparing attitudes in the Christian west to classical Greek Roman Arab Chinese and Japanese views on the subject as they were influenced by religious superstition political intrigue and basic human desires

Capitalism's Sexual History Nicola Jo-Anne Smith, 2020 As ongoing controversies over commercial sex attest the relationship between capitalism and sexuality is deeply contentious Economic and sexual practices are assumed to be not only separable but antithetical hence why paid sex is so often criminalized and morally condemned Yet while sexuality is highly politicized in moral terms it has largely been overlooked in the discipline devoted to the study of global capitalism international political economy IPE Likewise the prevailing field in sexuality studies queer theory has frequently sidelined questions of political economy This book calls for critical scholarship to challenge the economy sexuality dichotomy as it not only structures disciplinary debates but is part and parcel of capitalism itself **Capitalism's Sexual History** brings IPE and queer theory into close dialogue to explore how the division between economy and sexuality has been historically produced

to appear both natural and moral By examining sex work in Britain Nicola J Smith draws on in depth archival research to chart a history of capitalism s sexual relations from medieval times to the present day She shows how capitalist development was made possible by the appropriation of unpaid sexual labor that relied in turn on the repression and production of paid sex By tracing the historical construction of boundaries around sex and work this book exposes how capitalism has long profited from the notion that the sexual and economic spheres can and must be kept apart In so doing it offers a distinctive contribution to the study of sex and work as well as to wider scholarly activist and policy debates about political economy reproductive labor gender equality and sexual justice

**The Origins and Role of Same-Sex Relations in Human Societies** James Neill, 2011-10-17 This groundbreaking work draws on a vast range of research into human sexuality to demonstrate that homosexuality is not a phenomenon limited to a small minority of society but is an aspect of a complex sexual harmony that the human race inherited from its animal ancestors Through a survey of the patterns of sexual expression found among animals and among societies around the world and an examination of the functional role homosexual behavior has played among animal species and human societies alike the author arrives at some provocative conclusions that a homosexual or bisexual phase is a normal part of sexual development that same sex relations play an important balancing role in regulating human reproduction that many societies have institutionalized homosexual traditions in the past and that the harsh condemnation of homosexuality in Western society is a relatively recent phenomenon unique among world societies throughout history This well researched and meticulously documented book is the first that integrates into a coherent picture the startling revelations about human sexuality coming from the recent work of sexual researchers psychologists anthropologists and historians The view that emerges of an ambisexual human species whose complex sexual harmony is being thwarted by the imposition of an artificial understanding of nature represents a new way of thinking about sex

Jay Michaelson,2012-05-08 A passionate argument for LGBTQ equality within religious communities a book for our times and a book for the ages EDGE The myth that the Bible forbids homosexuality the myth of God versus Gay is behind some of the most divisive and painful conflicts of our day In this provocative and game changing book scholar and activist Jay Michaelson shows that the Bible does not prohibit same sex intimacy but does quite the opposite In fact the vast majority of the Bible s teachings support the full equality and dignity of LGBTQ people from the first flaw it finds in creation It is not good for a person to be alone to the way religious communities grow through reflection and conscience Michaelson argues passionately for equality not despite religion but because of it With close readings of the Hebrew Bible and New Testament the latest data on the science of sexual orientation and a sympathetic accessible and ecumenical approach to religious faith Michaelson makes the case that sexual diversity is part of the beauty of nature The recognition of same sex families will strengthen not threaten the values religious people hold dear Whatever your views on religion and sexual diversity God vs Gay is a plea for a more compassionate informed conversation and a first step toward creating one      **LGBTQ Stats** Bennett Singer,David Deschamps,2017-01-24 Winner of the 2018 American Library Association Stonewall Honor Book Award An essential handbook of myth busting facts and figures about the real lives of lesbian gay bisexual transgender and queer people Twenty years ago it was impossible to imagine the president of the United States embracing same sex marriage or Bruce Jenner transitioning to Caitlyn Jenner an open transgender woman LGBTQ Stats chronicles the ongoing LGBTQ revolution providing the critical statistics and draws upon and synthesizes newly collected data Deschamps and Singer whose previous books and films on LGBTQ topics have won numerous awards and found audiences around the globe provide chapters on family and marriage workplace discrimination education youth criminal justice and immigration as well as evolving policies and laws

**Misguided Love** Charles Fensham,2019-11-01 The invitation of this book is for my readers who are Christian to consider the dimension of harm in the ongoing debates on affirming or not affirming sexual and gender minority Christians within church communities Much has been said and much is

written on biblical interpretation and Christian traditions of teaching There are also many arguments on the issue of justice and equality that have been made for and against the affirmation of sexual and gender minorities Here I bring evidence of the history of harm and the infliction of harm on sexual and gender minority Christians In South Africa my country of origin I lived through the apartheid era and experienced first hand how biblical teaching can be used in pious ways to exploit discriminate and kill people Presently and in the past similar things happen to sexual and gender minority Christians When we discover that we do harm we must stop Charles Fensham      **Racism and the Making of Gay Rights** Laurie Marhoefer,2022-04-27 In 1931 a sexologist arrived in colonial Shanghai to give a public lecture about homosexuality In the audience was a medical student The sexologist Magnus Hirschfeld fell in love with the medical student Li Shiu Tong Li became Hirschfeld s assistant on a lecture tour around the world Racism and the Making of Gay Rights shows how Hirschfeld laid the groundwork for modern gay rights and how he did so by borrowing from a disturbing set of racist imperial and eugenic ideas Following Hirschfeld and Li in their travels through the American Dutch and British empires from Manila to Tel Aviv to having tea with Langston Hughes in New York City and then into exile in Hitler s Europe Laurie Marhoefer provides a vivid portrait of queer lives in the 1930s and of the turbulent often forgotten first chapter of gay rights      The sexual life of our time: a complete encyclopaedia of the sexual Iwan Bloch,1937
