Homeopathy For Epidemics:

Homeopathy for Epidemics Eileen Nauman, 2004 Homeopathy is a complementary form of medicine that has been practiced around the world since the 1700s. It heals on the basis of like cures like, calling upon our body's vital force to heal itself. In her new book, Eileen Nauman herself, a homeopathic practitioner with many years of experience, offers homeopathy as the answer to the question: What can we do in times of crises when modern medicine fails? Homeopathy for Epidemics explains what homeopathy is and how it works. Well-researched background information on modern epidemics and potential bioterrorism dangers tells us what we might be dealing with. A detailed materia medica describes which homeopathic remedy could be the one that might save our lives. A comprehensive section on posttraumatic stress disorder helps us figure out what we can do to heal after we've lived through an epidemic or terrorist crisis. And a detailed index lets us find answers to our questions quickly and easily. With its wealth of information, Homeopathy for Epidemics is a must-have in these times of crises when our lives might depend on making the right choice.

Golden Keys to Ascension and Healing Joshua David Stone, 1998-05-01 This volume represents the wisdom of the ascended masters condensed into concise keys that serve as a spiritual guide. There are 420 golden keys that present the multitude of methods, techniques, affirmations, prayers, and insights Dr. Stone has gleaned from his own background in psychology and life conditions and his thorough research of all the ancient and contemporary classics that speak of the path to God realization. The teachings of Sai Baba and other ascended masters are at the core of these keys, and the author has also drawn up on various spiritual scriptures such as the Bhagavad Gita and the Bible. Especially valuable are practical methods to support the ascension process such as journal writing and spiritual logs, as well as meditations and prayers.

Homeopathy Jay W. Shelton, 2010-10-29 The popularity of homeopathy has been increasing dramatically both in America and worldwide. Annual world sales of homeopathic remedies are approaching two billion dollars. In this thorough examination of homeopathy, physicist Jay W. Shelton analyzes the history, the remedies, the logical inconsistencies, and the effectiveness of this popular alternative medicine. Invented by German physician Samuel Hahnemann in 1755-1843, homeopathy is based on two key principles: 1. the law of similars: symptoms induced in healthy volunteers after ingestion of a substance are the same symptoms in sick people that this substance will cure; and 2. the concept of potentization: the most diluted remedies have the greatest curative power. Shelton clearly shows that although these principles may have had the ring of science in the early 19th century, they are not well supported by today's science. And yet most patients who visit homeopaths are better afterwards. Homeopaths assume the remedies are the cause. Shelton finds explanations based on known science to be better supported by the evidence: Unassisted natural healing, changes in lifestyle urged by the homeopath, the placebo effect, and cessation of harmful treatments are more probable causes of improved health. This being the case, he pursues the question: why so many people continue to believe that the remedies themselves are responsible. Among the contributing factors, Shelton notes the plausible-sounding explanations of homeopathic

theory a fundamental misunderstanding among homeopaths of science and its methods and ultimately the poor quality of education in critical thinking and science This reasoned balanced and in depth assessment will interest both homeopaths and conventional medical practitioners as well as consumers curious about a well known and much publicized alternative medicine

The Ancient Secret of the Flower of Life, Volume 2 Drunvalo Melchizedek,2000 The sacred Flower of Life pattern the primary geometric generator of all physical form is explored in even more depth in this volume the second half of the famed Flower of Life workshop The proportions of the human body the nuances of human consciousness the sizes and distances of the stars planets and moons even the creations of humankind are all shown to reflect their origins in this beautiful and divine image Through an intricate and detailed geometrical mapping Drunvalo Melchizedek shows how the seemingly simple design of the Flower of Life contains the genesis of our entire third dimensional existence From the pyramids and mysteries of Egypt to the new race of Indigo children Drunvalo presents the sacred geometries of the Reality and the subtle energies that shape our world We are led through a divinely inspired labyrinth of science and stories logic and coincidence on a path of remembering where we come from and the wonder and magic of who we are Finally for the first time in print Drunvalo shares the instructions for the Mer Ka Ba meditation step by step techniques for the re creation of the energy field of the evolved human which is the key to ascension and the next dimensional world if done from love this ancient process of breathing prana opens up for us a world of tantalizing possibility in this dimension from protective powers to the healing of oneself of others and even of the planet Embrace the expanded vision and understanding that Drunvalo offers to the world Coincidences abound miracles flourish and the amazing stories of mysteries unveiled arise as the author probes the Ancient Secrets of the Flower of Life

Don't Believe What You Think Edzard Ernst,2020-05-20 So called alternative medicine SCAM is largely useless very few

SCAMs demonstrably generate more good than harm Yet SCAM is popular and has grown into a huge business Spending on SCAM in Australia 2016 was estimated to be AUS 3.9bn in the UK 2008 4.5bn and in the US 2012 US 30.2bn Why is something that is expensive and useless nevertheless popular One answer is that consumers are constantly being misled about SCAM Consequently many of us have come to believe things that are quite simply not true Currently over 50 000 000 websites promote SCAM and consumers are being bombarded with information not just via the internet but also via newspapers magazines books and many other sources This situation has the potential of separating us from our cash or even of damaging our health There is little that protects us from greedy SCAM entrepreneurs and over enthusiastic SCAM therapists Therefore we ought to protect ourselves This book offers this protection for anyone who is willing to reconsider their own beliefs It discloses the errors and lies that misled you into believing things about SCAM that are untrue It analyses the many falsehoods used in the promotion of SCAM explains the erroneous thinking behind them and presents the scientific evidence in easily understandable terms In a way Ernst's new book amounts to a course in critical thinking a skill that should prove to be helpful far beyond the realm of healthcare Ernst's previous book was entitled SCAM So Called Alternative Medicine

[Living with Epidemics in Colonial Bengal](#) Arabinda Samanta, 2017-08-09 Making epidemics in colonial Bengal as its entry point and drawing heavily on social cultural and linguistic anthropology to understand the functions of health experiences distribution of illness prevention of sickness social relations of therapeutic intervention and employment of pluralistic medical systems the book interrogates the social construction of medical knowledge politics of science and the changing paradigm of relationship between health of the individual and the prerogatives of larger colonial economic formations Smallpox plague cholera and malaria which visited colonial Bengal with epidemic vengeance caught the people unaware killed them in thousands and changed the society and its demographic structures The book shows how sometimes through mutual adaptation but more often by cultural contestation people pulled

on with their microbial fellow travellers and how illness became metaphor for the social dangers of improper code of conduct to be corrected only through personal expropriation of the sin committed or by community worship of the deity supposedly responsible for it As a result Western medical science was often relegated to the background and elaborate rites and rituals supposedly having curative values came to the forefront and were observed with much community fanfare Epidemics were also interpreted as outcome of politically incorrect moves made by the ruling power To right the wrongs people very often resorted to social protest The protest by the literati went sometimes muted when its members seem to be beneficiaries of the colonial government but it turned out to be all the more violent when the people who had no private axe to grind took up the cudgel to fight it out
