Accelerating Human Evolution by Theosophical Initiation Yves Mühlematter,2022-12-19 The main subjects of analysis in the present book are the stages of initiation in the grand scheme of Theosophical evolution These initiatory steps are connected to an idea of evolutionary self development by means of a set of virtues that are relative to the individual s position on the path of evolution The central thesis is that these stages were translated from the Hindu tradition to the Theosophical tradition through multifaceted hybridization processes in which several Indian members of the Theosophical Society partook Starting with Annie Besant s early Theosophy the stages of initiation are traced through Blavatsky s work to Manilal Dvivedi and T Subba Row both Indian members of the Theosophical Society and then on to the San tana Dharma Text Books In 1898 the English Theosophist Annie Besant and the Indian Theosophist Bhagavan Das together founded the Central Hindu College Benares which became the nucleus around which the Benares Hindu University was instituted in 1915 In this context the San tana Dharma Text Books were published M hlematter shows that the stages of initiation were the blueprint for Annie Besant s pedagogy which she implemented in the Central Hindu College in Benares In doing so he succeeds in making intelligible how esoteric knowledge was transferred to public institutions and how a broader public could be reached as a result The dissertation has been awarded the ESSWE PhD Thesis prize 2022 by the European Society for the Study of Western Esotericism

Bridging Differences: Understanding Cultural Interaction in Our Globalized World Newtona (Tina) Johnson,Shawn Simpson,2019-01-04 This volume was first published by Inter Disciplinary Press in 2016 Cultural interaction in our worlds today is essential to building 21st century bridges between communities The experiences and lessons learned from the authors of the articles herein are shared with empathy and humility across many disciplines The creation and re creation of individual identities and group identities due to migrations throughout history is an ongoing story Never does one cultural profile remain constant On the contrary as boundaries change so do people and therefore cultures Interculturalism is the one valid approach to understanding these changes but should be used with great sensitivity And sensitivity is the over riding emotion emanating from the different studies in this volume the search for one s identity when the latter has been lost or has become difficult to recognize the attempts to erase identities so as to conform to national unity the will to create new identities to fit in with new environments

the need to re evaluate oneself so as to remain true to oneself These endeavors are subtly described in this vibrant compendium of intercultural monographies

Colonizing Christianity George E. Demacopoulos, 2019-03-05 A truly extraordinary reevaluation of historical events in light of new theoretical approaches groundbreaking Journal of Orthodox Christian Studies Colonizing Christianity employs postcolonial critique to analyze the transformations of Greek and Latin religious identity in the wake of the Fourth Crusade Through close readings of texts from the period of Latin occupation this book argues that the experience of colonization splintered the Greek community over how best to respond to the Latin other while illuminating the mechanisms by which Western Christians authorized and exploited the Christian East The experience of colonial subjugation opened permanent fissures within the Orthodox community which struggled to develop a consistent response to aggressive demands for submission to the Roman Church Colonizing Christianity s analysis of a number of texts through the lens of colonial and postcolonial theory makes for useful important reading There are significant stakes both for medieval historians and those committed to finding pathways of reconciliation among contemporary Christians David Perry author of Sacred Plunder Venice and the Aftermath of the Fourth Crusade

Haunted Empire Valeria Sobol, 2020-09-15 Haunted Empire shows that Gothic elements in Russian literature frequently expressed deep set anxieties about the Russian imperial and national identity Valeria Sobol argues that the persistent presence of Gothic tropes in the literature of the Russian Empire is a key literary form that enacts deep historical and cultural tensions arising from Russia s idiosyncratic imperial experience Her book brings together theories of empire and colonialism with close readings of canonical and less studied literary texts as she explores how Gothic horror arises from the threatening ambiguity of Russia s own past and present producing the effect Sobol terms the imperial uncanny Focusing on two spaces of the imperial uncanny

the Baltic north Finland and the Ukrainian south Haunted Empire reconstructs a powerful discursive tradition that reveals the mechanisms of the Russian imperial imagination that are still at work today Open Access edition funded by the National Endowment for the Humanities Discourses of Empire Hans Leander,2013-10-31 This inventive work explores Mark s Gospel within the contexts of the empires of Rome and Europe In a unique dual analysis the book highlights how empire is not only part of the past but also of a present colonial heritage The book first outlines postcolonial criticism and discusses the challenges it poses for biblical scholarship then scrutinizes the complex ways with which nineteenth century commentaries on Mark s Gospel interplayed with the formation of European colonial identities It examines the stance of Mark s Gospel vis vis the Roman Empire and analyzes the manner in which the fibers of empire within Mark are interwoven reproduced negotiated modified and subverted Finally it offers synthesizing suggestions for bringing Mark beyond a colonial heritage The book s candid use of postcolonial criticism illustrates how a contemporary perspective can illuminate and shed new light on an ancient text in its imperial setting
