The contents of Volume 127 Number 2 Dec 2013 include scholarly articles and essays by leading academic figures: *Imperial Powers and Humanitarian Interventions* Raphaël Cheriau, 2021-05-03. In the second half of the nineteenth century the Zanzibar Sultanate became the focal point of European imperial and humanitarian policies, most notably Britain, France and Germany. In fact, the Sultanate was one of the few places in the world where humanitarianism and imperialism met in the most obvious fashion. This crucial encounter was perfectly embodied by the iconic meeting of Dr Livingstone and Henry Morton Stanley in 1871. This book challenges the common presumption that those humanitarian concerns only served to conceal vile colonial interests. It brings the repression of the East African slave trade at sea and the expansion of empires into a new light, in comparing French and British archives for the first time. Raphaël Cheriau argues that the brutal power politics of recent humanitarian interventions have shaped historians' perspectives on earlier interventions, but that he is able to escape these present-day sensibilities in his approach to British and French interventions in nineteenth-century eastern Africa. While I might challenge that suggestion, nonetheless, he offers historians a valuable book that explores in detail the way imperialists of the nineteenth century did and did not use humanitarianism as a justification for their work in eastern Africa. Elisabeth MacMahon, *The English Historical Review*. The author weaves together a rich trove of primary documents from both British and French archives, some of these have been fruitfully exploited by previous historians, others reflect Cheriau's energetic digging to go beyond the obvious. He also draws upon an equally dense corpus of published primary sources in both languages as well as several contemporary newspapers, while his mastery of the secondary literature is impressive. Edward Alpers, *Australian Institute of International Affairs*. **Harvard Law Review: Volume 128, Number 5 - March 2015** Harvard Law Review, 2015-03-10. Infanticide Rachel Dixon, 2023-02-02 Infanticide examines medical expert evidence in infanticide cases focusing specifically on the shifting notion of certainty in medical testimony Beginning in the Early Modern period and concluding in the mid twentieth century it considers how courts determined whether an infant died from natural causes or other reasons including violence The book explores expert evidence in cases of infanticide and examines the extent of certainty created by medical specialists who founded their testimony on anatomical exploration and science As the book progresses it becomes clear that medical specialists were unable to scientifically establish cause of death and in doing so conveyed uncertainty in

court proceedings Rather than being regarded as a professional failing Dixon argues that the uncertainty created by medical specialists redirected the outcomes of infanticide cases The combination of uncertainty and the changing perceptions of infanticidal women by the court lead juries to find infanticidal women not guilty of a capital offence in many cases This book will be of great interest to students and scholars of Criminology Law and History *Harvard Law Review: Volume 131, Number 1 - November 2017* Harvard Law Review,2017-11-07 The November issue is the special annual review of the U S Supreme Court s previous Term Each year the Supreme Court issue is introduced by noteworthy and extensive contributions from recognized scholars In this issue for the 2016 Term articles include Foreword 1930s Redux The Administrative State Under Siege by Gillian E Metzger Essay Unprecedented Judicial Confirmation Battles and the Search for a Usable Past by Josh Chafetz Comment Churches Playgrounds Government Dollars and Schools by Douglas Laycock Comment Equality Sovereignty and the Family in Morales Santana by Kristin A Collins In addition the first issue of each new volume provides an extensive summary of the important cases of the previous Supreme Court docket covering a wide range of legal political and constitutional subjects Student commentary is thus provided on eighteen of the Leading Cases of the 2016 Term including such subjects as racial gerrymandering freedom of speech regulatory takings right to effective counsel equal protection appellate jurisdiction fair housing immigration law insider trading venue in patent cases and remedies for constitutional violations Complete statistical graphs and tables of the Court s actions and results during the Term are included these summaries and statistics including voting patterns of individual Justices have long been considered very useful to scholars of the Court in law and political science Finally the issue includes a linked Index of Cases and citations for the discussed opinions The Harvard Law Review is offered in a quality digital edition featuring active Contents linked footnotes active URLs legible tables and proper ebook and Bluebook formatting This current issue of the Review is November 2017 the first issue of academic year 2017 2018 Volume 131 The Review is a student run organization whose primary purpose is to publish a journal of legal scholarship It comes out monthly from November through June and has roughly 2500 pages per volume Student editors make all editorial and organizational decisions **Employment Relations** Amie Shaw,Ruth McPhail,Susan Ressaia ,2018-01-01 Overview This is the second edition of the well regarded local text Employment Relations This new edition takes an even more practical approach to a complex area considering both the industrial regulation and human resources dimensions of the employment relationship As well as providing a comprehensive guide to employment relations in Australia the text also offers a selective international comparative view on the management of the employment relationship The text explains and emphasises the real world connections between the important theories of industrial relations and human resources which are key components of the employment relations discipline The overarching aim is for students to gain a deeper understanding of the World of Work through the discipline of Employment Relations Harvard Law Review: Volume 129, Number 3 - January 2016 Harvard Law Review,2016-01-10 The January 2016 issue Number 3 features these
