Hauling Trash My Life As A Trash Hauler:

Hauling Trash Sam McGowan, 2012-10-03 HAULING TRASH is Sam McGowan's account of his experiences as a US Air Force aircrew member in the Vietnam Era. It starts with an account of his boyhood on a West Tennessee cotton farm then moves into his military experiences beginning in July 1963. Over the next twelve years he not only saw a good part of the world he saw combat in Southeast Asia as a C 130 crewmember. During his first overseas tour at Naha Okinawa he flew dangerous forward air controller flare missions over North Vietnam and the Ho Chi Minh Trail in Laos. After an eighteen month sojourn as a C 141 crewmember in Military Airlift Command he returned to combat operations in Southeast Asia this time with a unit based at Clark Air Base in the Philippines. In addition to combat airlift missions into forward airfields in South Vietnam he flew COMMANDO VAULT bombing missions dropping massive ten and fifteen thousand bombs from C 130s. In 1970 he returned to the US to the first operational squadron flying the gigantic C 5 Galaxy and was involved with the huge airplane during the years as it experienced growing pains. In October 1973 he was a crewmember on one of the first C 5As to land at Lod Airport at Tel Aviv during the Yom Kippur War. In addition to his experiences as an Air Force crewmember both in the air and on the ground he also relates his experiences as he progresses from civilian private pilot to a commercial pilot with instrument rating and flight instructor certificate and how he learned aerobatics on his own. This is a book for anyone who is interested in military aviation particularly during the Vietnam War but it also includes much about the author's experiences flying light airplanes and would appeal to aviation enthusiasts as well as those with an interest in the military.

students between the ages of 16 and 18 Because high schools in Iran are gender segregated the students were all boys I had prepared nothing for them in advance because the invitation was spontaneous consequently I decided I would be spontaneous engage them in conversation and see what would develop I began with some introductory remarks and then I thought I would capture their attention by asking them a question I told them that good teachers are good story tellers they tell all sorts of stories in order to stimulate their students engagement in the subject matter and to get important points across Then I asked the question Do you know what the most important story is that you can tell A few of the students raised their hands One of them happened to be in the front row his hand was higher than others and I could tell from his facial expression that he had an interesting answer for me so I let him speak He said the most important story a person could tell is the story of your life His answer was not only remarkable but also unexpected because it was given by a 16 year old boy I tried to imagine how many noteworthy life stories this very young man could tell in any case his answer set the tone for the rest of my presentation I began to speak to the students about my own high school experience here in Iran when I was their age From that time on I have often thought about this young man and his answer This experience eventually led to my decision to gather together some of the things I had written in my spare time over the course of a few years and publish them in the form of a book The content of this book is comprised of memories and some reflections on my life experiences from when I was growing up in Iran as well as musings on some contemporary issues of the day from my perspective as an economist or a Muslim or as an immigrant parent raising children in the United States I believe the words of Edward Albee quoted above The act of writing is an act of optimism and I do it because I believe it does matter For me the optimism Albee refers to is similar to President Barack Obama writing about his audacity to hope and this book is the result of my daring to dream When I look back on my poor younger years in Iran as one of seven children of illiterate parents my journey at times seems almost unimaginable It was my great good fortune to have been the youngest of four sons born to my farmer father therefore I was not needed to help with the farm so I was freed from that filial responsibility This freedom allowed me to dare to dream My curiosity and love of learning drove me to work hard and to strive for something more coming to the United States becoming an economics professor at a Chicago university and raising bicultural children The second part of Albees quote is just as meaningful I took the trouble to write because writing does matter I believe that communicating ones experiences thoughts and opinions with others is one side of an essential conversation that has been going on since the dawn of civilization Cavemen began this communication and conversation when they first felt compelled to share the pictures of their lives and their world at that time on the stone walls of their homes and gathering places This conversation has continued
