Snapshot Photography Catherine Zuromskis, 2021-08-24 An examination of the contradictions within a form of expression that is both public and private specific and abstract conventional and countercultural Snapshots capture everyday occasions Taken by amateur photographers with simple point and shoot cameras snapshots often commemorate something that is private and personal yet they also reflect widely held cultural conventions The poses may be formulaic but a photograph of loved ones can evoke a deep affective response In Snapshot Photography Catherine Zuromskis examines the development of a form of visual expression that is both public and private Scholars of art and culture tend to discount snapshot photography it is too ubiquitous too unremarkable too personal Zuromskis argues for its significance Snapshot photographers she contends are not so much creating spontaneous records of their lives as they are participating in a prescriptive cultural ritual A snapshot is not only a record of interpersonal intimacy but also a means of linking private symbols of domestic harmony to public ideas of social conformity Through a series of case studies Zuromskis explores the social life of snapshot photography in the United States in the latter half of the twentieth century She examines the treatment of snapshot photography in the 2002 film One Hour Photo and in the television crime drama Law and Order Special Victims Unit the growing interest of collectors and museum curators in vintage snapshots and the snapshot aesthetic of Andy Warhol and Nan Goldin She finds that Warhol's photographs of the Factory community and Goldin's intense and intimate photographs of friends and family use the conventions of the snapshot to celebrate an alternate version of family values In today's digital age snapshot photography has

become even more ubiquitous and ephemeral and significantly more public But buried within snapshot photography's mythic construction Zuromskis argues is a site of democratic possibility

Scansion in Psychoanalysis and Art Vanessa Sinclair, 2020-11-16 Scansion in Psychoanalysis and Art examines a strain of artists spanning more than a century beginning at the dawn of photography and culminating in the discussion of contemporary artists to illustrate various psychoanalytic concepts by examining artists working in a multitude of media Drawing on the theories of Sigmund Freud who applied psychoanalytic methods to art and literature to decipher the meaning and intention of the creator as well as Jacques Lacan's dissemination of scansion as a powerful disruption of narrative the book explores examples of the long and rich relationship between psychoanalysis and the fine arts Whilst guiding readers through the different artists and their artforms from painting and music to poetry collage photography film performance art technology and body modification Sinclair interrogates scansion as a generative process often inherent of the act of creation itself This is an intriguing book for psychoanalysts psychologists and creative arts therapists who wish to explore the generative potential of scansion and the relationship between psychoanalysis and the arts as well as for artists and art historians interested in a psychoanalytic view of these processes

Trans America Barry Reay, 2020-05-07 Trans seems to be everywhere in American culture Yet there is little understanding of how this came about Are people aware that there were earlier periods of gender flexibility and contestability in American history How well known is it that a previous period of trans visibility in the 1960s and early 1970s faced a vehement backlash right at the time that trans in the form of what was then termed transvestism and transsexuality seemed to be so ascendant Was there transness before transsexuality was named in the 1950s and transgender emerged in the 1990s Barry Reay explores this history from a time before trans in the nineteenth century to the transsexual moment of the 1960s and 1970s the transgender turn of the 1990s and the so called tipping point of current culture It is a rich and varied history where same sex desires and identities cross dressing and transsexual and transgender identities jostled for recognition It is a history that is not at all flattering to US psychiatric and surgical practices Arguing for the complexity of a trans past and present Trans America will be a groundbreaking work for the trans community as well as anyone interested in the history of medicine sexuality psychology and psychiatry

Pissing Figures 1280-2014

Jean-Claude Lebensztein, 2017-08-22 Jean Claude Lebensztein's history of the urinating figure in art *Pissing Figures 1280 2014* is at once a scholarly inquiry into an important visual motif and a ribald statement on transgression and limits in works of art in general. Lebensztein is one of France's best kept secrets. A world class art historian who has lectured and taught at major universities in the United States, his work has remained almost entirely in French, his American audience limited to a small but dedicated group of cognoscenti. First introducing the Manneken Pis, the iconic little boy whose stream of urine supplies water to this famous fountain and is also the logo for a Belgian beer company, the author takes the reader through a semi scatological maze of cultural history. The earliest example is a fresco scene located directly above Cimabue's *Crucifixion* from around 1280 at the Basilica of Saint Francis of Assisi in which Lebensztein's careful eye locates an angel behind a pillar who looks like he is about to urinate through a hole in his garment. He continues to navigate expertly through cultural twists and turns, stopping to discuss Pier Paolo Pasolini's 1968 film *Teorema* for example and Marlene Dumas's 1996 1997 homage to Rembrandt's *peeing woman*. At every moment Lebensztein's prose is lively, his thinking dynamic and his subject matter entertaining. In this short and poignant cultural history, readers not only find the care for detail that has made Lebensztein into one of the greatest European art historians but also the rebelliousness that makes him one of the most interesting intellectuals of our time. The first widely distributed book of Lebensztein's in English *Pissing Figures 1280 2014* is simultaneously published in France by Editions Macula.

Genders 19 Ann M. Kibbey,Kayann Short,Abouali Farmanfarmanian,1994-09 Sexual Artifice marks the evolution of Genders from a triannual journal to a biannual anthology Henceforth each volume will have a focus on a particular gender related issue offering original essays on the specific theme This volume proposes that there is something more to the social construction of gender than what social science has been able to describe On the contested state of international politics public imagery and nationalist cinema the

artifice of sexuality wields an enormous power to influence the interpretation of our social selves and the world we live in. These essays collectively explore the art of constructing gender in symbolic media images in poetry, photography and montage in dramatic identity politics and last but not least in contemporary feminism itself. NYU sociologist Victor P. Corona sought a new education where night classes held in galleries, nightclubs, bars, apartments, stoops and all night diners taught him about love, loss and the living possibilities of identity. Transforming himself from dowdy professor to glitzy clubgoer, Victor immerses himself among downtown's dazzling tribes of artists and performers hungry for fame. *Night Class: A Downtown Memoir* investigates the glamour of New York nightlife. In interviews and outings with clubland revelers and influencers including Party Monster and convicted killer Michael Alig, *Night Class* exposes downtown's perilous trappings of drugs, ambition and power. [Theorising the Artist Interview](#) Lucia Farinati, Jennifer Thatcher, 2024-08-29 Reflecting on the relationship between artists and their audiences, this book examines how artists have presented themselves publicly through interviews and sought to establish a critical voice for themselves. Considering the interview as a form of cultural production, contributors explore the criteria for determining the artist interview as a distinct field of research in relation to other cultural fields. Structured in four parts: History and Historiography, Subverting the Biographical Model, Interviews as Practice and Materiality, and Technology, the book takes an interdisciplinary approach that encompasses the fields of art history, fine art, oral history, curating, media studies and museum conservation. By theorising the artist interview as a form of cultural production and embracing it as a co-constructed critical practice, this volume aims to show and encourage an approach to art history which dismantles old hierarchies in favour of valuing dialogue and collaboration. The book will be of interest to scholars working in art history, museum studies, oral history and historiography.
