Keeping Us Safe Arthur S. Hulnick, 2004-08-30 How can the United States guard against a clever unknown enemy while still preserving the freedoms it holds dear Hulnick explains the need to revamp U S intelligence operations from a system focused on a single Cold War enemy to one offering more flexibility in combating non state actors including terrorists spies and criminals like those responsible for the attacks of September 11 2001 Offering possible solutions not to be found in the federal commission s official report Hulnick s groundbreaking work examines what is really necessary to make intelligence and homeland security more efficient and competent both at within the United States and abroad The U S government s progress in establishing a system for homeland security is considerable yet besides shifts in alert status most U S residents are unaware of the work being done to keep them safe Describing the system already in place Hulnick adds further ideas about what more is needed to protect Americans in the ever changing world of intelligence To create a truly valuable program it is suggested the the United States consider not only new strategies and tactics but also the need to break down the barriers between intelligence agencies and law enforcement
