Trojan War and that they were tangible evidence that Homer's epics were true. Yet these objects did not reflect the heroic past imagined by Victorians and a fierce controversy broke out about the collection's value and significance. Schliemann invited Londoners to see the very unclassical objects on display as the roots of classical culture. Artists, poets, historians, race theorists, bankers and humourists took up this challenge but their conclusions were not always to Schliemann's liking. Troy's appeal lay in its materiality; visitors could apply analytical techniques from aesthetic appreciation to skull measuring to the collection and draw their own conclusions. This book argues for a deep examination of museum exhibitions as a constructed spatial experience which can transform how the past is seen. This new angle on a famous archaeological discovery shows the museum as a site of controversy where hard evidence and wild imagination came together to form a lasting image of Troy.

High School World History Review Notes Bernard Feder, Wallace K. Schoenberg, 1964 *Homer* Barbara

Graziosi, Johannes Haubold, 2013-10-16 This book offers a new approach to the study of Homeric epic by combining ancient Greek perceptions of Homer with up to date scholarship on traditional poetry. Part I argues that in the archaic period the Greeks saw the Iliad and Odyssey neither as literary works in the modern sense nor as the products of oral poetry. Instead they regarded them as belonging to a much wider history of the divine cosmos whose structures and themes are reflected in the resonant patterns of Homer's traditional language and narrative techniques. Part II illustrates this claim by looking at some central aspects of the Homeric poems: the gods and fate, gender and society, death, fame and poetry. Each section shows how the patterns and preoccupations of Homeric storytelling reflect a historical vision that encompasses the making of the universe from its beginnings when Heaven mated with Earth to the present day. *OCR Classical Civilisation GCSE Route 2*

Robert Hancock-Jones, Dan Menashe, James Renshaw, 2017-08-24 This textbook is endorsed by OCR and supports the specification for GCSE Classical Civilisation first teaching September 2017. It covers the Thematic Study Component 12 and all three Literature and Culture options. Components 21-23: Thematic Study: Women in the Ancient World by Robert Hancock-Jones; Literature and Culture 1: The Homeric World by Dan Menashe; Literature and Culture 2: Roman City Life by James Renshaw; Literature and Culture 3: War and Warfare by James Renshaw. How much can we know about the lives of women in the ancient world? Why is the hero Odysseus such an interesting character? What was it like to watch a gladiatorial fight? Why was the Roman army so successful? This book guides GCSE students to a greater understanding of such issues. The opening chapter examines the lives of women in Greece and Rome and also focuses on women in myth and legend. The following three chapters invite readers to explore the culture of the Mycenaeans, city life in the Roman world and ancient Greek and Roman warfare, focusing both on aspects of ancient society and on related literature. The ideal preparation for the final examinations: all content is presented by experts and experienced teachers in a clear and accessible narrative. Ancient literary and visual sources are described and analysed with supporting images and examples of non-prescribed sources. Helpful student features include study questions, activities, further reading and boxes focusing in on key people, events and terms. Practice questions

The Ages of Homer Jane B. Carter, Sarah P. Morris, 2013-12-18 Homer's Iliad and Odyssey have fascinated listeners and readers for over twenty five centuries In this volume of original essays collected to honor the distinguished career of Emily T Vermeule thirty four leading experts in Homeric studies and related fields provide up to date multidisciplinary accounts of the most current issues in the study of Homer The book is divided into three sections The first section treats the Bronze Age setting of the poems around 1200 B C using archaeological evidence to reveal how poetic memory preserves distorts and invents the past The second section explores the early Iron Age in which the poems were written c 800 500 B C using the strategies of comparative philology and mythology literary theory historical linguistics anthropology and iconography to determine how the poems took shape The final section traces the use of Homer for literary and artistic inspiration by classical Greece and Rome

The Bible, Homer, and the Search for Meaning in Ancient Myths John Heath, 2019-04-29 The Bible Homer and the Search for Meaning in Ancient Myths explores and compares the most influential sets of divine myths in Western culture the Homeric pantheon and Yahweh the God of the Old Testament Heath argues that not only does the God of the Old Testament bear a striking resemblance to the Olympians but also that the Homeric system rejected by the Judeo Christian tradition offers a better model for the human condition The universe depicted by Homer and populated by his gods is one that creates a unique and powerful responsibility almost directly counter to that evoked by the Bible for humans to discover ethical norms accept death as a necessary human limit develop compassion to mitigate a tragic existence appreciate frankly both the glory and dangers of sex and embrace and respond courageously to an indifferent universe that was clearly not designed for human dominion Heath builds on recent work in biblical and classical studies to examine the contemporary value of mythical deities Judeo Christian theologians over the millennia have tried to explain away Yahweh's Olympian nature while dismissing the Homeric deities for the same reason Greek philosophers abandoned them they don't live up to preconceptions of what a deity should be In particular the Homeric gods are disappointingly plural anthropomorphic and amoral at best But Heath argues that Homer's polytheistic apparatus challenges us to live meaningfully without any help from the divine In other words to live well in Homer's tragic world an insight gleaned by Achilles the hero of the Iliad one must live as if there were no gods at all The Bible Homer and the Search for Meaning in Ancient Myths should change the conversation academics in classics biblical studies theology and philosophy have especially between disciplines about the gods of early Greek epic while reframing on a more popular level the discussion of the role of ancient myth in shaping a thoughtful life

The Pauline Effect Jennifer R.

Strawbridge, 2015-11-13 This study offers a fresh approach to reception historical studies of New Testament texts guided by a methodology introduced by ancient historians who study Graeco Roman educational texts In the course of six chapters the author identifies and examines the most representative Pauline texts within writings of the ante Nicene period 1Cor 2 Eph 6

1Cor 15 and Col 1 The identification of these most widely cited Pauline texts based on a comprehensive database which serves as an appendix to this work allows the study to engage both in exegetical and historical approaches to each pericope while at the same time drawing conclusions about the theological tendencies and dominant themes reflected in each. Engaging a wide range of primary texts it demonstrates that just as there is no singular way that each Pauline text was adapted and used by early Christian writers so there is no homogeneous view of early Christian interpretation and the way Scripture informed their writings, theology and ultimately identity as Christian.
