Homo Hierarchicus:

Homo Hierarchicus Louis Dumont, 1970-01-01 **Homo Hierarchicus** Louis Dumont, 1974 Louis Dumont's modern classic here presented in an enlarged revised and corrected second edition simultaneously supplies that reader with the most cogent statement in the Indian caste system and its organizing principles and a provocative advance in the comparison of societies on the basis of their underlying ideologies Dumont moves gracefully from the ethnographic data to the level of the hierarchical ideology encrusted in ancient religious texts which are revealed as the governing conception of the contemporary caste structure On yet another plane of analysis homo hierarchicus is contrasted with his modern Western antithesis homo aequalis This edition includes a lengthy new Preface in which Dumont reviews the academic discussion inspired by Homo Hierarchicus and answers his critics A new Postface which sketches the theoretical and comparative aspects of the concept of hierarchy and three significant Appendixes previously omitted from the English translation complete in this innovative and influential work **Homo Hierarchicus** Louis Dumont, 1870 **To Take Place** Jonathan Z. Smith, 1987 In this broad ranging inquiry into ritual and its relation to place Jonathan Z Smith prepares the way for a new approach to the comparative study of religion Smith stresses the importance of place in particular constructed ritual environments to a proper understanding of the ways in which empty actions become rituals He structures his argument around the territories of the Tjilpa aborigines in Australia and two sites in Jerusalem the temple envisioned by Ezekiel and the Church of the Holy Sepulchre The first of these locales the focus of one of the more important contemporary theories of religious ritual allows Smith to raise questions concerning the enterprise of comparison His close examination of Eliade's influential interpretation of the Tjilpa tradition leads to a powerful critique of the approach to religion myth and ritual that begins with cosmology and the category of The Sacred In substance and in method To Take Place represents a significant advance toward a theory of ritual It is of great value not only to historians of religion and students of ritual but to all whether social scientists or humanists who are concerned with the nature of place This book is extraordinarily stimulating in prompting one to think about the ways in which space or place is perceived marked and utilized religiously A provocative example of the application of humanistic geography to our understanding of what takes place in religion Dale Goldsmith Interpretation **Homo Hierarchicus** Dumont, 1981 **The Art of Contextual Theology** Victor I. Ezigbo, 2021-05-28 Christianity has an inherent capability to assume as its novel mode of expression the local idioms customs and thought forms of a new cultural frontier that it encounters As a result Christianity has become multicultural and multilingual What is the role of theology in the imagination and articulation of Christianity's inherent multiculturalism and multi vernacularity Victor Ezigbo examines this question by exploring the nature and practice of contextual theology To accomplish this task this book engages the main genres of contextual theology explores echoes of contextual theological thinking in some of Jesus's sayings and discusses insights into contextual theology that can be discerned in the discourses on theology and caste relations Dalit

theology and primal cultures African theology and poverty Latin American liberation theology *The Oxford Handbook of Caste* Surinder S. Jodhka, Jules Naudet, 2023 The Oxford Handbook of Caste brings together a wide range of essays encompassing various academic disciplines to lay the foundations for a new understanding of caste capturing emerging research trends imaginations and the lived realities of caste Way of Life T. N. Madan, 1988-01-01 **Homo hierarchicus**, 1966 **Dalit Theology and Dalit Liberation** Peniel Rajkumar, 2016-05-13 In fulfilling the long awaited need for a constructive and critical rethinking of Dalit theology this book offers and explores the synoptic healing stories as a relevant biblical paradigm for Dalit theology in order to help redress the lacuna between Dalit theology and the social practice of the Indian Church Peniel Rajkumar's starting point is that the growing influence of Dalit theology in academic circles is incompatible with the praxis of the Indian Church which continues to be passive in its attitude towards the oppression of the Dalits both within and outside the Church The theological reasons for this lacuna between Dalit theology and the Church's praxis Rajkumar suggests lie in the content of Dalit theology especially the biblical paradigms explored which do not offer adequate scope for engagement in praxis **Marcel Mauss** Wendy James, N. J. Allen, 1998-12-01 Marcel Mauss successor of Emile Durkheim and one time teacher of Claude Levi Strauss continues to inspire social scientists across various disciplines Only selected texts of Mauss's work have been translated into English but of these some as for instance his *Essay on the Gift* have proved of key significance for the development of anthropology internationally Recently and starting in France the interest in Mauss's work has increased noticeably as witnessed by several reassessments of its relevance to current social theory This collection of original essays is the first to introduce the English language reader to the current re-evaluation of his ideas in continental Europe Themes include the post-structuralist appraisal of exchange the anthropology of the body practical techniques gesture systems the notions of substance materiality and the social person There are fresh insights into comparative politics and history modern forms of charity and new readings of some political and historical aspects of Mauss's work that bear on the analysis of regions such as Africa and the Middle East relatively neglected by the Durkheimian school and by structuralism This volume is a timely tribute to mark the centenary of Mauss' early work and confirms the continuing relevance of his ideas Essays on the Caste System by Célestin Bouglé Célestin Charles Alfred Bouglé, 1971-08-31 The Coming Authoritarian Ecology Fabrice Flipo, 2018-05-24 The book examines ecological issues such as climate change and biodiversity articulating local and global scales and short and long term perspectives questioning what development and progress are The goal is to show how diverging points of view are conflictingly articulated to one another in a political ideology perspective This perspective which is close to the main actor's point of view allows displacement of the usual analysis and offers a new synthesis *Asian Perspectives On Human Rights* Claude Welch, 2021-11-28 Analyzes Asian perspectives on human rights in terms of cultural traditions grassroots and regional organizations and economic constraints on the expression of rights The book asks are human rights western in their

inception are they universal or do they differ by region and culture

Peasants and Monks in British India William R. Pinch, 1996-06-18 In this compelling social history William R Pinch tackles one of the most important but most neglected fields of the colonial history of India the relation between monasticism and caste The highly original inquiry yields rich insights into the central structure and dynamics of Hindu society insights that are not only of scholarly but also of great political significance Perhaps no two images are more associated with rural India than the peasant who labors in an oppressive inflexible social structure and the ascetic monk who denounces worldly concerns Pinch argues that contrary to these stereotypes North India's monks and peasants have not been passive observers of history they have often been engaged with questions of identity status and hierarchy particularly during the British period Pinch's work is especially concerned with the ways each group manipulated the rhetoric of religious devotion and caste to further its own agenda for social reform Although their aims may have been quite different Ramanandi monastics worked for social equity while peasants agitated for higher social status the strategies employed by these two communities shaped the popular political culture of Gangetic north India during and after the struggle for independence from the British

Experiments in Holism Ton Otto, Nils Bubandt, 2011-08-02 Experiments in Holism Experiments in Holism Theory and Practice in Contemporary Anthropology presents a series of essays that critically examine the ongoing relevance of holism and its theoretical and methodological potential in today's world Contributions from a diverse collection of leading anthropologists reveal how recent critiques of the holistic approach have not led to its wholesale rejection but rather to a panoply of experiments that critically reassess and reemploy holism The essays focus on aspects of holism including its utilization in current ethnographic research holistic considerations in cultural anthropology the French structuralist tradition the predominantly English tradition of social anthropology and many others Collectively the essays show how holism is simultaneously central to and problematically a part of the theory and practice of anthropology Experiments in Holism reveals how contemporary attempts to rescale and retool anthropology entail new ways of coming to terms with anthropology's heritage of holism seeking to obviate its current excesses while recapturing its critical potential to meet the challenges of our contemporary world
