

The background is a complex, abstract composition. It features a central sphere with blue and yellow horizontal stripes. Surrounding this sphere are various elements: a bright yellow, flame-like shape in the upper right; a red, elongated object with a yellow center in the upper middle; and a large, bright yellow rectangular area in the lower left. The overall color palette is dominated by blues, yellows, and reds, with a sense of movement and depth created by the overlapping shapes and lines.

Mapping Environmental Issues in the City Sébastien Caquard, Laurene Vaughan, William Cartwright, 2011-08-19 This book

complements the growing body of literature exploring the relationships between arts and cartography. It is distinct from the previous ones by its main focus: The multiple ways of representing a database. In the context of the exponential increase of the volume of geospatial data available, addressing this issue becomes critical and has not yet received much attention. Furthermore, the content of the database on environmental issues in the city gives a strong social and political texture to the project. The expected audience for this book are academic as well as students interested in the relationships between art and cartography, place and technology, power and representations. This book could serve as an inspiration for local groups and communities dealing with environmental injustice all over the world. Finally, at a local scale, this book could become a major reference for individuals, communities and institutions interested in environmental issues in the city of Montreal. **Sync or Swarm, Revised Edition** David Borgo, 2022-02-10

The revised edition of *Sync or Swarm* promotes an ecological view of musicking, moving us from a subject-centered to a system-centered view of improvisation. It explores cycles of organismic self-regulation, cycles of sensorimotor coupling between organism and environment, and cycles of intersubjective interaction mediated via socio-technological networks. Chapters funnel outward from the solo improviser Evan Parker to nonlinear group dynamics, Sam Rivers' trio to networks that comprise improvisational communities to pedagogical dynamics that affect how individuals learn, completing the hermeneutic circle. Winner of the Society for Ethnomusicology's Alan Merriam prize in its first edition, the revised edition features new sections that highlight electro-acoustic and transcultural improvisation and concomitant issues of human-machine interaction and postcolonial studies. **Re-Framing the Theatrical A.**

Oddey, 2015-12-17 Oddey questions the role of the spectator and director and the nature of art works and performance. She provocatively demonstrates the spectator as centre of the artistic experience, a new kind of making theatre art revealing its spirit and nature, searching for space and contemplation in a hectic twenty-first century landscape. [The Oxford Handbook of Voice Studies](#)

Nina Eidsheim, Katherine Meizel, 2019-05-22 More than 200 years after the first speaking machine, we are accustomed to voices that speak from any and everywhere. We interact daily with voices that emit from house alarm systems, cars, telephones, and digital assistants such as Alexa and Google Home. However, vocal events still have the capacity to raise age-old questions about the human, the animal, the machine, and the spiritual, or in non-metaphysical terms, questions about identity and authenticity. In *The Oxford Handbook of Voice Studies*, contributors look to the metaphorical voice as well as the clinical understanding of the vocal apparatus to answer the seemingly innocuous question: What is voice? From a range of disciplines, including the humanities, biology, culture, and technology studies, contributors draw on the unique methodologies and values each has at hand to address the uses, meanings, practices, theories, methods, and sounds of the voice. Together, they assess the ways that discipline-specific ontological and epistemological assumptions of voice need to shift in order to take the findings of other fields into account. This Handbook thus enables a lively discussion as multifaceted and complex as the voice itself has proven to be. *Brian Eno* Sean Albiez, David Pattie, 2016-08-11 On the back of his published diary, Brian Eno
