Post Compulsory Education workforce Contemporary Intellectual Assessment, Third Edition Dawn P. Flanagan, Patti L. Harrison, 2012-01-24 In one volume this authoritative reference presents a current comprehensive overview of intellectual and cognitive assessment with a focus on practical applications. Leaders in the field describe major theories of intelligence and provide the knowledge needed to use the latest measures of cognitive abilities with individuals of all ages from toddlers to adults. Evidence-based approaches to test interpretation and their relevance for intervention are described. The book addresses critical issues in assessing particular populations including culturally and linguistically diverse students, gifted students and those with learning difficulties and disabilities in today's educational settings. New to This Edition: Incorporates major research advances and legislative and policy changes. Covers recent test revisions plus additional tests: the NEPSY II and the Wechsler Nonverbal Scale of Ability. Expanded coverage of specific populations: chapters on autism spectrum disorders, attention deficit hyperactivity disorder, sensory and physical disabilities, and traumatic brain injury and intellectual disabilities. Chapters on neuropsychological approaches, assessment of executive functions, and multi-tiered service delivery models in schools.

Developmental Science Marc H. Bornstein, Michael E. Lamb, 2015-07-24 Developmental Science: An Advanced Textbook is the most complete and cutting-edge introduction to the field available today. Since its initial publication, the key purpose of the text has been to furnish inclusive developmental perspectives on all substantive areas in psychology, neuroscience, perception, cognition, language, emotion, and social interaction. This edition is no exception as it continues to underscore the dynamic and exciting status of contemporary developmental science. In this Seventh Edition, Marc H. Bornstein and Michael E. Lamb once again invite international experts to prepare original, comprehensive, and topical treatments of the major areas of developmental science, which are masterfully woven into a single coherent volume. Some chapters in this edition are new, and those carried forward from the sixth edition have been extensively revised. This volume represents faithfully the current status of scholarly efforts in all aspects of developmental science. Ideal for advanced undergraduate and introductory graduate courses, the text is accompanied by a website with supplementary material for students and instructors, including chapter outlines, topics to think about, before-reading glossaries, and suggested readings.
