

The image shows the interior of a colonial church. In the background, there is a classical altar with a pediment supported by four columns. Behind the altar are four arched windows with dark, possibly stained glass. On either side of the altar, an American flag is displayed on a pole. In the foreground, there are rows of wooden pews. The floor is made of light-colored stone tiles. The overall atmosphere is solemn and historical.

German immigrants of the nineteenth century left a distinctive mark on the lifestyles and vernacular architecture of Texas. In this first comprehensive survey of the art and artifacts of German Texans, Kenneth Hafertepe explores how their material culture was influenced by their European roots, how it was adapted to everyday life in Texas, and how it changed over time at different rates in different communities. *The Material Culture of German Texans* is about the struggle to become American while maintaining a distinctive cultural identity drawn from German heritage. Including materials from rural, small town, and urban settings, this masterful study covers pioneer generations in East Texas and the Hill Country but also follows the story into the Victorian era and the early twentieth century. Houses and their furnishings, churches and cemeteries, breweries and businesses, and paintings and engravings fill the pages of this thorough, informative, and richly illustrated volume. Recent decades have seen a sharp increase of the study of vernacular architecture, which can range from traditional building to ethnic expressions to landscape ensembles, and an intensified study of American furniture and other decorative arts. Incorporating these vernacular and decorative arts methods and building on the works of cultural geographers, curators, and historians, *The Material Culture of German Texans* offers a definitive contribution that will inform visitors to the region as well as those who study its history and culture. *Civil Tongues and Polite Letters in British America* David S. Shields, 1997. In cities from Boston to Charleston, elite men and women of eighteenth-century British America came together in private venues to script a polite culture. By examining their various texts—conversations, letters, newspapers, and privately circulated manuscripts—David Shields reconstructs the discourse of civility that flourished in and further shaped elite society in British America.
