Engage Every Family Steven M. Constantino, 2020-08-27 New and Improved Revisit Five Simple Principles and Engage

With Every Family Why haven't we been more successful in engaging every family in the educational lives of their children? Why do we still struggle with the notion of engaging every family as a conduit to improved student learning? This book outlines a pathway and process to engage every family including those families that have been traditionally disengaged or disenfranchised. Updates to this second edition include updated research to ensure a firmer foundation for each of its five simple principles as well as Reflections about implicit bias, equitable learning outcomes and the role family engagement plays. A deeper dive into the idea of family efficacy or empowering families to work alongside teachers for improved learning. A nuanced switch from building to developing relationships and how trust is at the core of that subtle difference. Join Dr Steve Constantino as he shares what he has learned and how he has improved the Five Simple Principles for family engagement and its powerful effects upon student achievement.

International Perspectives on Parenting Support and Parental Participation in Children and Family Services Carmel Devaney, Rosemary Crosse, 2023-09-08 This book provides an account of parenting support initiatives in children and family services from a number of jurisdictions paying particular attention to their impact on both hard and soft outcomes for participants and to the inclusion of parents in the design and delivery of these supports. By focusing on parents who are experiencing challenges outside of the normal day to day task of parenting and in receipt of formal support services their perspectives on the experience of receiving these supports and the difference experienced by children and family members are analysed. Conceptually driven and reflecting the individual theories and frameworks that underpinned the parenting supports, the participatory processes and the research undertaken, this book includes case studies from Australia, Bulgaria, England, Italy, Ireland, Northern Ireland, Norway, Poland, Portugal, Scotland, Serbia and Spain. By highlighting the theoretical, conceptual and practical considerations required when supporting parents in an inclusive manner, it will be of interest to all scholars, students and practitioners working in the following areas: social work and social care, child development, child protection and social policy.
