Engaging Ideas John C. Bean, 2011-07-20 Learn to design interest provoking writing and critical thinking activities and incorporate them into your courses in a way that encourages inquiry exploration discussion and debate with Engaging Ideas a practical nuts and bolts guide for teachers from any discipline Integrating critical thinking with writing across the curriculum approaches the book shows how teachers from any discipline can incorporate these activities into their courses This edition features new material dealing with genre and discourse community theory quantitative scientific literacy blended and online learning and other current issues *Sojourning in Disciplinary Cultures* Maureen Mathison, 2019-04-15
Sojourning in Disciplinary Cultures describes a multiyear project to develop a writing curriculum within the College of Engineering that satisfied the cultural needs of both compositionists and engineers at a large R1 university Employing intercultural communication theory and an approach to interdisciplinary collaboration that involved all parties cross disciplinary colleagues were able to develop useful descriptions of the process of integrating writing with engineering overcoming conflicts and misunderstandings about the nature of writing gender bias hard science versus soft science tensions and many other challenges This volume represents the collective experiences and insights of writing consultants involved in the large scale curriculum reform of the entire College of Engineering they collaborated closely with faculty members of the various departments and taught writing to engineering students in engineering classrooms Collaborators developed syllabi that incorporated writing into their courses in meaningful ways designed lessons to teach various aspects of writing created assignments that integrated engineering and writing theory and concepts and worked one on one with students to provide revision feedback Though interactions were sometimes tense the two groups writing and engineering developed a third culture that generally placed students at the center of learning *Sojourning in Disciplinary Cultures* provides a guide to successful collaborations with STEM faculty that will be of interest to WPAs instructors and a range of both composition scholars and practitioners seeking to understand more about the role of writing and communication in STEM disciplines Contributors Linn K Bekins Sarah A Bell Mara K Berkland Doug Downs April A Kedrowicz Sarah Read Julie L Taylor Sundy Watanabe *International Guide to Student Achievement* John Hattie, Eric M. Anderman, 2013-01-17
The International Guide to Student Achievement brings together and critically examines the major influences shaping student achievement today There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best World renowned bestselling authors John Hattie and Eric M Anderman have invited an

international group of scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains Rather than telling people what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world Readers can apply this knowledge base to their own school and classroom settings The 150 entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick easy reference Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries guiding readers to apply this knowledge to their own classrooms their curriculums and teaching strategies and their teacher training programs
