Prosodic Morphology in Mandarin Chinese Shengli Feng, 2017-12-14 It is not entirely clear if modern Chinese is a monosyllabic or disyllabic language Although a disyllabic prosodic unit of some sort has long been considered by many to be at play in Chinese grammar the intuition is not always rigidly fleshed out theoretically in the area of Chinese morphology In this book Shengli Feng applies the theoretical model of prosodic morphology to Chinese morphology to provide the theoretical clarity regarding how and why Mandarin Chinese words are structured in a particular way All of the facts generated by the system of prosodic morphology in Chinese provide new perspectives for linguistic theory as well as insights for teaching Chinese and studying of Chinese poetic prosody Early Years, 1984 Understanding the Social and Emotional Lives of Gifted Students Thomas P. Consciousness George H. Szanto, 2014-09-10 Comparatively little critical attention has been devoted to narrative technique in modern fiction and formal analysis of the work of Kafka Beckett and Robbe Grillet in particular has for the most part been limited to short studies in journals many of these in languages other than English The criticism written in English has dealt primarily with theme with metaphysics and myth and ignored structure and style Yet it is structure and style that offer the reader a way into the often bewildering and disturbing fictional worlds these three writers present The problem confronting writers since the middle of the nineteenth century has been how to cope artistically with an increasingly alienating and mechanized world As George Szanto sees it Kafka Beckett and Robbe Grillet conclude by the example of their fictions that the writer s province is no longer this impossible environment Instead the writer must work within the only knowledge available to any one person the knowledge attained through perceptions The proper study for a storyteller is thus the search for the unique details the describable perceptions a person chooses from the outside world and brings into their mind which in the end define their nature The shape of the story is determined by the narrating consciousness that single character through whose awareness the details are filtered Thus in a very special sense the tale and the telling are one Szanto s meticulous and thoughtful study of the major fiction of Kafka Beckett and Robbe Grillet searches out these details and examines the manner in which each author through the minds of his characters has selected and ordered them His structural approach not only leads the reader directly into the works under scrutiny but also provides an understanding of the workings of the art itself In the appendices the author surveys the different ways in which criticism has treated these three writers His extensive bibliography provides a valuable research tool **Cyclopædia of Political Science, Political Economy, and of the Political History of the United States** John Joseph Lalor, 1886
