1. The first step is to identify the problem. In this case, the problem is that the company is not meeting its sales targets.

There's a lot more to a company's reputation than its products and services.

It's about the company's history and how it has evolved over time. It's about the company's values and how it treats its employees and customers. It's about the company's social and environmental impact.

It's about the company's reputation in the eyes of the public. It's about the company's reputation in the eyes of its employees and customers. It's about the company's reputation in the eyes of its competitors.

It's about the company's reputation in the eyes of the world.
