

Inferring Paragraphs

for reading aloud

Read aloud a paragraph to students. Ask them to identify what is happening in the story. Using modeling as necessary, have students identify specific details in the text that act as clues to guide their inferences.

Paragraph 1:

A woman finished reading a story and closed the book. About 20 children got up from the carpet and went to a corner of the room. They began taking coats and hats off of hooks. After putting on their coats and hats, the children lined up.

Infer: Where are the children going? How do you know?

Paragraph 2:

A boy asked his mother for help getting some things off a shelf. She took down some jars and brushes, and the boy brought them to the kitchen table. Next, he went to his mother's desk and took out blank sheet of paper. He put the piece of paper on the kitchen table. Finally, the boy filled a cup of water and sat down at the table with all of these things.

Infer: What is the boy going to do? How do you know?

Paragraph 3:

A class of students walked with their teacher to a special room in their school. They sat down, and a woman came out to read them a story. After she read them the story, the children began looking around at the shelves of books. Each student chose one book. The children lined up, and the woman scanned their books using a special computer. When everyone was finished, the children left with their teacher, and the woman stayed in the room.

Infer: What is the woman's job? How do you know?
