

Loading a different film size to match a print request

If a print request requires a different film size, the requested film size flashes on the display screen. Change the installed film to match the print request.

Screen 1: "35" flashes

The requested film size flashes. In this example, load 35 x 43 cm (14 x 17 in.) film.

The Film Size symbol indicates that you must change the film size.

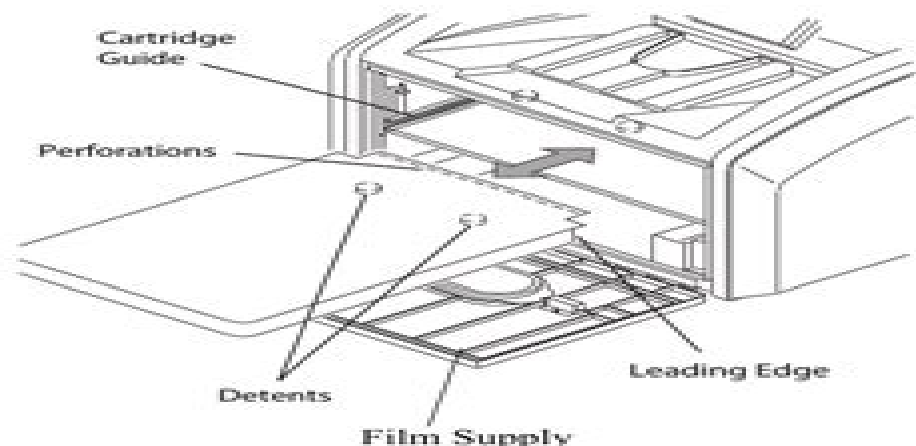

Screen 2: "43" flashes

In most cases, the Pause symbol is off. Do not open the film supply if the Pause symbol is on. The Pause symbol indicates that the film cartridge is open.

1. If the Pause symbol is on, press it and wait until it goes off.
2. Open the film supply. Hold the edges of the film cartridge and lift the cartridge out of the film supply.
3. Store the removed film cartridge.
4. Insert the new film cartridge. Align the cartridge with the label facing up and the perforations to the front. Set the leading edge on the cartridge guides, and then slide the film cartridge into the laser imager to engage the detents in the bottom of the cartridge.

5. Close the film supply.
6. Check that the display screen changes to reflect the new film size.
