Early Childhood Quality Rating Scale—Emergent Curriculum (ECQRS-EC) Kathy Sylva, Iram Siraj, Brenda Taggart, Denise Kingston, Young children's learning depends on a wide range of experiences that support their holistic development. While many different curricular frameworks are used around the world, there is increasing agreement that the emerging academic skills of language and literacy, mathematics and science should be supported by a playful pedagogy in the early years. The Early Childhood Quality Rating Scale Emergent Curriculum ECQRS-EC is designed to measure quality in these key areas within preschool settings. In addition to three content area subscales, this evidence-based tool includes a subscale dedicated to diversity and inclusion to help educators support gender and cultural differences in children 3-6 years old who are developing at different rates. Because it recognizes the important role of the adult in providing children with high quality interactions, this new quality rating scale can be used for research, teacher self-evaluation and program improvement, audit and regulation. Research that has worldwide significance is rare, but the authors have strong credentials from decades of work on projects that have global relevance for early years research policy and practice. From the Foreword by W. Steven Barnett and Ellen C. Frede, co-directors, National Institute for Early Education Research, Rutgers. This indispensable tool guides policymakers, researchers and early childhood educators in how to achieve high quality learning situations. Sonja Sheridan, University of Gothenburg, Sweden. The research-informed ECQRS-EC enables a much-needed objective assessment of pedagogy and learning environments, an indispensable resource. Nirmala Rao, The University of Hong Kong. The ECQRS-EC is a gift for anyone dedicated to providing high quality early education and care. Tara McLaughlin Massey, University of New Zealand.

The Oxford Handbook of Infant, Toddler, and Preschool Mental Health Assessment Rebecca DelCarmen-Wiggins, Alice S. Carter, 2019-12-02. This fully updated new edition of The Oxford Handbook of Infant, Toddler and Preschool Mental Health Assessment remains the leading reference for those seeking to understand and assess mental health in infants and young children. Detailing the latest empirical research on measures and methods of infant and young child assessment and providing clinically applicable information for practitioners, this handbook takes a closer look at current developmentally based conceptualizations of mental health function and dysfunction in infants and young children, as well as current and new diagnostic criteria in specific disorders such as sensory modulation dysfunction, autism spectrum disorders, affective disorders and post-traumatic stress disorder. Presented in four sections, chapters correspond to four broad themes: contextual factors in early assessment; temperament and regulation in assessment of young children; early problems and disorders; and translation and varied applied settings for assessment. Each chapter presents state-of-the-science information on valid developmentally based clinical assessment and makes recommendations based on developmental theory, empirical findings and clinical experience. Chapters have been added to this second edition covering family assessment, early care and educational environments, new approaches for distinguishing temperament from

psychopathology assessing language and implementing second stage screening and referral The volume recognizes and highlights the important role of developmental social and cultural contexts in approaching the challenge of assessing early problems and disorders This new updated volume will be an ideal resource for teachers researchers and a wide variety of clinicians and trainees including child psychologists and psychiatrists early interventionists and early special educators

Techwise Infant and Toddler Teachers Patricia A. Cantor, Mary M. Cornish, 2016-10-01 Infants and toddlers the so called touchscreen generation are living in a screen mediasaturated world They are the target market for ever growing numbers of apps TV shows electronic toys and e books Making sense of the complex issues associated with screen media in the lives of children under 3 can be challenging for the adults who care for them There is a strong need among teachers and parents of infants and toddlers for guidance related to the appropriate role of screen media in early care and education Unlike most other books about technology in early childhood this book focuses specifically on infants and toddlers It explores why and how infant and toddler teachers need to be techwise in order to understand the implications of screen media for children s learning and development The book serves as a single accessible resource to relevant research findings from the fields of pediatric medicine child development developmental psychology social and behavioral sciences and brain science It provides infant toddler teachers with a comprehensive approach and strategies to guide their decisionmaking and promote practices that are evidence based family centered culturally responsive and collaborative It is a call for teachers to think carefully and act wisely when making decisions about screen media both the technology that they are encountering now and the technology they will encounter in the future in order to optimize the learning and healthy development of infants and toddlers

The Movement Environment Rating Scale (MOVERS) Carol Archer, Iram Siraj, 2023-12-22 This revised new edition of The Movement Environment Rating Scale MOVERS offers a brand new method of measuring the quality of environment and pedagogy in which young children are encouraged to move and be physically active As physical development is a key component of an educational curriculum MOVERS offers practitioners the opportunity to accurately assess the quality of a child s physical experiences and the environmental and pedagogical quality of these experiences The MOVERS is placed firmly in the family of CLIQRS Curriculum Leadership and Interaction Quality Rating Scales which includes the Early Childhood Quality Rating Scale Emergent Curriculum ECQRS EC the Sustained Shared Thinking and Emotional Well being Scale SSTEWS and the Pedagogical Leadership in the Early Years PLEY scale all of which have a similar format to previously mentioned scales making it easy for educators already familiar with these well established scales to adopt them and adapt them to their own unique settings MOVERS has four sub scales curriculum environment and resources for physical development pedagogy for physical development supporting physical activity and critical thinking parents carers and staff This book will be an invaluable tool for research self evaluation and improvement audit and regulation With additional notes derived using the feedback from extensive use of this resource by practitioners in hundreds of settings and

early years specialists around the world it has also been rigorously updated according to latest research practice and policy

Group Care for Infants, Toddlers, and Twos Deborah J. Norris, Diane M. Horm, 2019-10-23 This volume extends the knowledge base supporting research informed child care for infants and toddlers while simultaneously highlighting areas of study ripe for future research The authors demonstrate from a systems perspective that the experiences and outcomes of very young children in child care are influenced by characteristics of and interactions between the children adults and settings Varying methodological approaches as well as the utilization of newer data collection instruments inform the field's understanding of current practices and procedures while offering guidance for future programming and policy In turn the chapters highlight a plethora of open questions and a need for a new generation of research to support the field of infant toddler care Future challenges are evident in the recognition of the inadequate nature of our current measures of child outcomes and classroom processes the field's unmet promise to incorporate interdisciplinary perspectives and the need for newer methodological designs that blend the strengths of quantitative and qualitative approaches These issues are important given the growing demand for infant toddler care and the increasing recognition of the unique role of this age period in serving as the foundation for all later development This book was originally published as a special issue of *Early Education and Development*
