Functional Foods and Nutraceuticals

Chukwuebuka Egbuna, Genevieve Dable Tupas, 2020-08-24 Functional foods and nutraceuticals are food products that naturally offer or have been modified to offer additional health benefits beyond basic nutrition. As such products have surged in popularity in recent years, it is crucial that researchers and manufacturers understand the concepts underpinning functional foods and the opportunity they represent to improve human health, reduce healthcare costs, and support economic development worldwide. *Functional Foods and Nutraceuticals: Bioactive Components, Formulations, and Innovations* presents a guide to functional foods from experienced professionals in key institutions around the world. The text provides background information on the health benefits, bioavailability, and safety measurements of functional foods and nutraceuticals. Subsequent chapters detail the bioactive components in functional foods responsible for these health benefits, as well as the different formulations of these products and recent innovations spurred by consumer demands. Authors emphasize product development for increased marketability, taking into account safety issues associated with functional food adulteration and solutions to be found in GMP adherence. Various food preservation methods aimed at enhancing the quality and shelf life of functional food are also highlighted. *Functional Foods and Nutraceuticals: Bioactive Components, Formulations, and Innovations* is the first of its kind, designed to be useful to students, teachers, nutritionists, food scientists, food technologists, and public health regulators alike. *Optimum Vitamin Nutrition for More Sustainable Swine Farming* Edgar

Oviedo-Rondon, Clemente López-Bote, Gilberto Litta, José-María Hernández, 2023-08-31 Food production, particularly animal protein production, is changing. While productivity, efficiency, and food quality continue to be of vital importance, there is increasing pressure on producers to prioritize sustainability and animal health and welfare, as well as minimize food waste. Optimizing vitamin nutrition can help make animal production more sustainable by optimizing animal health and welfare and animal performance and food quality while reducing food waste. *Optimum Vitamin Nutrition for More Sustainable Swine Farming* contains concise, up-to-date information on vitamin nutrition for swine.
