xenophobia **Making the Law Explicit** Matthias Klatt, 2008-09-08 Legal argumentation consists in the interpretation of texts Therefore it has a natural connection to the philosophy of language Central issues of this connection however lack a clear answer For instance how much freedom do judges have in applying the law How are the literal and the purposive approaches related to one another How can we distinguish between applying the law and making the law This book provides answers by means of a complex and detailed theory of literal meaning A new legal method is introduced namely the further development of the law It is so far unknown in Anglo American jurisprudence but it is shown that this new method helps in solving some of the most crucial puzzles in jurisprudence At its centre the book addresses legal indeterminism and refutes linguistic philosophical reasons for indeterminacy It spells out the normative character of interpretation as emphasized by Raz and with the help of Robert Brandom s normative pragmatics it is shown that the relativism of interpretation from a normative perspective does not at all justify scepticism On the contrary it supports the claim that legal argumentation can be objective and maintains that statements on the meaning of a statute can be right or wrong and take on inter subjective validity accordingly This book breaks new ground in transferring Brandom s philosophy to legal theoretical problems and presents an original and exciting analysis of the semantic argument in legal argumentation It was the recipient of the European Award for Legal Theory in 2002 This book represents on the one hand a reception of Robert Brandom s important theory including applications of this theory in the field of legal philosophy and on the other an exploration of the limits of an appeal in legal interpretation to the text The enquiry thereby impinges upon the central juridico philosophical themes of meaning objectivity and normativity The author s work counts as a significant contribution to analytical jurisprudence and is deserving of a wide readership Robert Alexy Professor for Public Law and Legal Philosophy Kiel Klatt focuses on a very profound theory of concept formation and uses this theory in a creative way to solve classical problems of legal argumentation Aleksander Peczenik **Concrete** ,1922 **Accounting Information Systems** Leslie Turner, Andrea B.
