Handbook Of Veterinary Communication Skills:

Handbook of Veterinary Communication Skills Carol Gray,Jenny Moffett,2013-05-23 This is the first definitive textbook on veterinary communication written specifically for students and veterinary professionals by a group of international experts Communication is a core clinical skill and is now taught as a compulsory part of most veterinary degree courses Good communication is crucial to the veterinarian client patient relationship to patient health and ultimately to the success of any veterinary business The book covers all the key areas of communication including the basic framework for the veterinary consultation professional ethical and legal aspects communication with clients and colleagues and coping with end of life and other difficult situations It combines the most up to date research with a wealth of practical information such as Real life case studies to help you apply your learning to real scenarios Simple step by step guidelines showing you how to deal with specific situations Examples of written resources you can use in practice This valuable textbook has been written and edited by a carefully chosen group of specialists comprising veterinary communication lecturers veterinary practitioners training managers and counsellors *Handbook of Veterinary Communication Skills* Carol Gray,Jenny Moffett,2009-07-01

A Guide to Oral Communication in Veterinary Medicine Ryane E. Englar,2020-07-12 Good communication skills provide better clinical outcomes and help avoid minor as well as major mistakes Approximately 60 80% of negligence claims against vets are related to poor communication with new graduates especially vulnerable Communication skills are a growing part of the curriculum in veterinary schools recognising how fundamental clear communication is to good practice A Guide to Oral Communication in Veterinary Medicine covers why communication skills are important the structure of typical communications and suggested approaches veterinary specific communication pathways and sample scripts between vet and client Scenarios covered include everyday communication dealing with challenging situations different species different settings and communication within the veterinary team The aim is to instil confidence and competence build professionalism and avoid problems Most current teaching is based on a toolbox approach developed from the human medicine model However there is no set standard for teaching methodology which is why this is primarily a book for students but also includes a section for educators to provide guidance in this nascent subject 5m Books Handbook of Veterinary Nursing Hilary Orpet,Perdi Welsh,2011-11-28 Handbook of Veterinary Nursing presents essential guidance and helpful tips on developing and delivering high quality nursing care and skills Fully updated this easy to follow guide reflects recent changes to veterinary nursing qualifications current terminology and drugs in use The emphasis is on the importance of working methodically using high quality procedures to help the whole veterinary team ensure the most successful outcomes in animal care Written in note form for quick reference by veterinary nurses and technicians at all stages of their training and career this will be invaluable for both exam revision and quick reference in clinic Contents include The nursing process in veterinary care physical assessment of the patient managing the hospital environment managing the operating room surgical nursing

activities anaesthesia diagnostic imaging diagnostic tests triage and emergency procedures and essential calculations for drugs fluids nutrition and radiographic exposures Key features Gives clinical advice quickly and simply Written by authors with many years experience of veterinary nurse training and education Contains essential calculations Illustrated in colour throughout

Small Animal Veterinary Psychiatry Sagi Denenberg, 2020-12-03 Problem behaviours are often the result of how an animal thinks and feels genetics and environmental influences Steering away from just description diagnoses and focusing instead on emotional and cognitive causes this book provides a practical approach to diagnosing treating and managing behaviour pathologies in dogs and cats Beginning by addressing cases in the first opinion practice this book then considers physical disorders that may lead to or exacerbate abnormal behavior From there the focus shifts to mental and emotional health from an assessment of normal behavior and giving juveniles an optimal start in life to diagnosing mental and emotional disorders addressing emotions such as anxiety and frustration and how to manage these issues by modifying behavior managing the animal's environment training and when necessary the use of medications The second half of the book then addresses owner concerns including management problems aggression affective disorder elimination disorder abnormal and repetitive behaviours and ageing related problems

Exploring and Teaching Healthcare

Communication Jack Pun, 2025-06-09 This book brings together frontline clinicians from diverse healthcare fields including Medicine Intensive Care Neurology Geriatrics Oncology Palliative Care Nursing Traditional Chinese Medicine and Veterinary Medicine to share their insights experiences and strategies for effective clinical communication Drawing on research and real world practices the author provides evidence based and practical recommendations for teaching studying and implementing effective communication in healthcare Special attention is given to the role of cultural expectations particularly in bilingual and multicultural medical contexts Using Hong Kong as a case study the book explores its unique integration of Western and Chinese values to offer a comparative perspective applicable to other healthcare settings worldwide It argues for the development of a culturally appropriate communication model informed by clinicians insights to enhance therapeutic relationships and ensure patient safety This book is an essential resource for medical educators healthcare professionals doctors and nurses in training medical students health communication researchers and scholars in applied linguistics and related fields
