*H-O-T Hands-on Training* Lynda Weinman, Garo Green, 2000. On Dreamweaver. [Horse Training In-Hand](#) Ellen Schuthof-Lesmeister, Kip Mistral, 2020-04-06. Working the horse from the ground, schooling in hand as it has been known for centuries, has long been an integral part of classical horse training. Now this gorgeously illustrated book explains in clear step by step lessons how the modern day horse owner can incorporate classical groundwork in her daily interactions with her equine partner to both their benefit and enjoyment. Whether schooling green or young horses, retraining problem horses or those with poor foundations, warming up advanced mounts prior to workouts, confirming lateral movements on the ground before attempting them on horseback or supplementing everyday under saddle exercises, work in hand provides a wonderful way to advance the horse's education as well as the standard of communication between horse and handler. Its gradual progression of work on the longe, double longe, long lines, short reins and long reins is the perfect addition to the training program that has grown a little stale or boring. The manageable solution to countless problems that commonly arise in daily work with horses and by definition an equestrian art form unto itself. With over 100 color photographs including many detailed series shots to demonstrate correct body positioning and meticulously hand drawn illustrations to guide you through the often confusing land of lateral work. *Horse Training In Hand* is the first book ever to help shed classical groundwork's mystique while conscientiously preserving its magic.
