Crafts from Your Favorite Bible Stories Kathy Ross, 2000-01-01 Presents instructions for making twenty nine craft projects related to Bible stories and characters including a Jonah in the whale puppet a cardboard tube manger and a hair growing Samson

The World of the Worker James R. Green, 1998 Limits to Culture Malcolm Miles, 2015-06-20 How can we unmask the vested interests behind capital s cultural urban agenda Limits to Culture pits grass roots cultural dissent against capital s continuing project of control via urban planning In the 1980s notions of the creative class were expressed though a cultural turn in urban policy towards the creative city De industrialisation created a shift away from how people understood and used urban space and consequently gentrification spread With it came the elimination of diversity and urban dynamism new art museums and cultural or heritage quarters lent a creative mask to urban redevelopment This book examines this process from the 1960s to the present day revealing how the notion of creativity been neutered in order to quell dissent In the 1960s creativity was identified with revolt yet from the 1980s onwards it was subsumed in consumerism which continued in the 1990s through cool Britannia culture and its international reflections Today austerity and the scarcity of public money reveal how the illusory creative city has given way to reveal its hollow interior through urban clearances and underdevelopment

The Case for Wasting Time and Other Management Heresies Howard Pines, 2013-03-29 Understanding the basic tenets of management is certainly important but following the conventional wisdoms such as not wasting time is not necessarily the key to solving problems or achieving personal success Providing advice that goes against that conventional wisdom is exactly what this book is about whether it concerns how to get things done as you move up in a company or how to develop relationships and support both inside and outside an organization In fact not only is the advice unconventional and in many cases heretical too are the subjects covered For example the importance of validating assumptions is not something you are likely to read about in most business books But as Howard Pines explains if you dont you are likely to make both

embarrassing and sometimes costly errors Similarly while there are many books that will tell you how to get a job there are virtually no others that explain how to determine the best time and way to leave a job and or a business In addition even when discussing aspects of business that are covered in other books such as negotiating or dealing with change the author enables you to see those subjects in a way that is both different and helpful Wasting Time does not however provide simple answers Rather based on the authors fifty years of hands on experience as a human resources executive successful HR consultant and business owner the book shows how even issues that appear to be straightforward may in reality provide interesting dilemmas that require creative thinking and non traditional approaches if you want to achieve the best solution
