Zhe Xu

Handbook For Theory Research And Practice In Gestalt Therapy:

Handbook for Theory, Research, and Practice in Gestalt Therapy Philip Brownell, 2009-03-26 Many books have been written about gestalt therapy Not many have been written on the relationship between gestalt therapy and psychotherapy research The Handbook for Theory Research and Practice in Gestalt Therapy is a needed bridge between these two concerns and a timely addition to scholarly literature on gestalt therapy itself In 2007 an international team of experienced gestalt therapists devoted themselves to create this book and they have collaborated with one another to produce a challenging and enriching addition to the literature relevant to gestalt therapy The book discusses the philosophy of science the need for research specifically focused on gestalt therapy and the critical realism and natural attitude found in both research and gestalt praxis It provides discussions of qualitative and quantitative research describes the methods of gestalt therapy as based in a unified theory and illustrates the application of research in the contexts of emerging gestalt research communities The discussion contained in this book is needed at a time when warrant for the practice of psychotherapy is increasingly sought in the empirical support available through psychotherapy research the so called evidence based movement and at a time when public policy is increasingly driven by the call for what works Handbook for Theory, Research, and Practice in Gestalt Therapy (2nd Edition) Philip Brownell, 2019-05 This is a true second edition so much so that it approaches being a different book It includes among its new authors some of the most sought after theorists in contemporary gestalt therapy There is a section on the philosophy of science research and research methodology and one devoted to gestalt therapy and its teaching and research in diverse parts of the world There is disagreement and critique for this is not a simple book It is so packed with information that it serves as both a challenge and a resource This second edition of the Handbook will take its place as an aid in understanding the evolution of contemporary gestalt therapy and as a guide to the evolving research tradition in gestalt therapy It rightfully belongs on the shelves of both beginning trainees in gestalt therapy and advanced and experienced practitioners and certainly represents a resource for practitioner researchers involved in practice based research **Handbook for Theory, Research, and Practice in Gestalt Therapy (2nd Edition)** Philip Brownell, 2019-04-03 This is a true second edition so much so that it approaches being a different book It includes among its new authors some of the most sought after theorists in contemporary gestalt therapy There is a section on the philosophy of science research and research methodology and one devoted to gestalt therapy and its teaching and research in diverse parts of the world There is disagreement and critique for this is not a simple book It is so packed with information that it serves as both a challenge and a resource This second edition of the Handbook will take its place as an aid in understanding the evolution of contemporary gestalt therapy and as a guide to the evolving research tradition in gestalt therapy It rightfully belongs on the shelves of both beginning trainees in gestalt therapy and advanced and experienced practitioners and certainly represents a resource for practitioner researchers involved in practice based research Gestalt Therapy for
